

Cyber-Insurance-as-a-Service With Real-Time Risk Scoring

Traditional cyber insurance has not been able to keep up with increasing market demands and everchanging cyber threats for many reasons:

Long manual process

Outdated cyber domain knowledge

Conservative pricing

Exclusions such as AI risks

Create market-first cyber protection offerings and manage your risk in the most effective way with our **Reinsurance-as-a-Service (RaaS)**:

1 min

Proprietary cyber risk scoring

- Gain technology risk insights of your prospects
- Enhance your cyber insurance underwriting
- Ongoing cyber exposure assessment with recommendations to policyholders

Supported by Cymetrics cybersecurity services

Cymetrics

100%

Digital quote-to-buy user experience

- Ready-made customer journey to use
- Low-code product builder
- Real-time policy issuance with dynamics rule engine

Supported by IXT digital insurance core platform
