NUIX INVESTIGATE® END USER ONE DAY INSTRUCTOR LED CLASS

The Nuix Investigate® End User certification training class is designed to introduce techniques for collaboration on case data and digital evidence, including the following:

- Create and assign items to Tags, Secured Fields, and Folders in various views
- Work with common search types such as kind, communication, and date
- Explore advanced search methods
- Identify various types of analytics which will offer unique views into the case data
- Generate reports

Students will be enrolled in the Nuix Investigate End User exam. Passing of the Nuix Investigate End User exam is a requisite for the Nuix Forensic Practitioner Master certification.
