

We Are World Builders.

FutureTime is Into the Future's playful learning system that brings together hands-on building, engaging lessons, and digital activities to help young people develop creativity, confidence, and the skills to navigate a changing world.

Play. Learn. Build.

KEY SUCCESS METRICS

88%

See themselves as creative

83%

Believe they can learn new things

81%

Feel belonging with Into the Future

FUTURETIME

YOU CHOOSE

**TOMORROW
TRIBUNE**

ROCK OF THE DAY

BUILD BOOK

School Bundles

Explore our **School Bundles**: project-based, hands-on lessons and kits that bring imagination, futures thinking, and creative building into your classroom.

Wonder Widgets

Designed to encourage self-directed exploration and **PLAY**, Wonder Widget resources for the classroom help kids feel safe, curious, and ready to learn. Wonder Widgets include magnets, fidgets, trilobite glasses, balancing birds, and other sensory objects. Wonder Widgets come in classroom sets or on rolling carts.

FutureTime Lessons

LEARN joyfully with our FutureTime curriculum, exploring the past, present, and future. Access **FREE** 5-10 min activities through the [Futuretime.fun](https://futuretime.fun) platform. Deepen learning with our 12 BUILD projects that include Design Challenges materials. Choose from categories: Animals, Health & Wellbeing, Transport & Tech, and more.

Build Materials

After the lesson, students tackle a Design Challenge to **BUILD** their own version of the future using hands-on materials. Our kits contain everything you need, including a wide variety of uniquely curated build materials, glue guns, and even extension cords. Each FutureTime Kit is designed for up to 30 students and can be completed in 30-40 minutes.
