----- Fold on Dotted Lines. ———— ✂ Cut on Solid Lines.

BUILDING THE PIGEON'S EYE PICTURE

- Cut the two pictures into strips following the solid lines.
- Cut out the picture base on the solid lines.
- Fold on the dotted lines (like an accordion or fan).
- Glue each strip from the two pictures to its matching number section.
- Now you'll get a different picture depending on your perspective. (Just like what you learned in Episode 3!)
