

FUTURETIME: GLASSES

What we learned today:

Today we explored how glasses have changed, from the first sunglasses to today's high-tech smart glasses. We discovered how Indigenous groups from the Arctic once used snow goggles to protect their eyes from the snow, then imagined our own futuristic designs that could talk, glow, or even describe the world aloud for people who can't see!

THE TOMORROW TRIBUNE

TALKING LENSES HELP LOST
KIDS FIND THEIR WAY HOME!

Quiz your family!

What were the lenses of early sunglasses made out of?

- A) Smoky Quartz
- B) Amethyst
- C) Stale Pizza

Ask your family

"If your glasses could do anything in the future, what would you want them to do, and why?"
