

# FUTURETIME: GARBAGE TRUCKS

## What we learned today:

We discovered how garbage trucks have evolved from horse-drawn carts to today's high-tech machines. Then students imagined what they could look like in the future, exploring new ways to make trucks that smell better, use clean energy, and even clean the air while they work!

## Quiz your family!

The battery in electric garbage trucks is made with:

- A) Hydrogen
- B) Lithium
- C) Old bubblegum

## Ask your family

"If garbage trucks in the future could do more than collect trash, what amazing new feature would you add?"
