

FUTURETIME: PLAYGROUNDS

What we learned today:

Over the years, playgrounds have changed from simple sand pits to amazing spaces that include everyone and protect the planet! We looked at playgrounds made from recycled materials, powered by footsteps, and even floating on water. Then, we imagined and built our own playgrounds of the future filled with fun, creativity, and clean energy!

Quiz your family!

What was the “Barrel-of-Fun” playground equipment?

- A) A spinning barrel kids could run on
- B) A barrel filled with toys and prizes
- C) A barrel that you rode like a boat over a waterfall

Ask your family

“If you could design a playground, what cool or creative feature would you add?”
