Placement Success Stories

Aarav Sharma

7 years experience

TCS → Google

"I worked at TCS for 7 years but felt stuck. Despite many interviews with top companies, something always went wrong. Then I joined Meritshot — they guided me step-by-step, helped me practice interviews, and showed me exactly where I was lacking. Within months, I cracked Google! My salary jumped 120%, and for the first time, I had multiple offers. Truly a dream come true."

Rohan Verma

5 years experience

Wipro → Amazon

"I was at Wipro for 5 years, earning decently but feeling like my growth had hit a ceiling. A friend told me about Meritshot, and I thought, 'Why not give it a shot?' The mock interviews were a game-changer — I realised my answers were too generic before. After 3 months of focused prep, I got into Amazon with a 150% hike. Now, I'm leading projects I once only read about."

Meera Joshi

6 years experience

TCS → IBM

"Six years at TCS taught me discipline, but I wanted to work on more cutting-edge tech. Meritshot's prep plan fit right into my schedule, and the constant support kept me motivated. I cracked IBM with a 120% hike. It's like my career finally shifted to the fast lane."

Arjun Malhotra

6 years experience

Capgemini → Meta

"I had given 6 interviews for top tech firms in the past — failed every single one. Then I joined Meritshot, and within weeks, I figured out why. My technical answers were fine, but I wasn't structuring them well. Meritshot's mock panels fixed that. Three months later, I had an offer from Meta with a 300% hike."

Placement Success Stories

Sneha Lyer
3 years experience

Tech Mahindra → Google

"I was in a comfortable job at Tech Mahindra, but I knew I could do more. I joined Meritshot mainly to see if I was even ready for big-tech interviews. The trainers didn't just teach me — they pushed me beyond my comfort zone. In 2 months, I cracked Google with a 180% hike. My parents are still telling every relative about it."

Karan Mehta
8 years experience

HCL → Netflix

"After 8 years in HCL, I felt like my career was running on autopilot. Meritshot helped me rebuild my resume, fine-tune my technical skills, and ace behavioural rounds. I landed Netflix with a 250% hike. Now I'm working on projects that millions of people actually use daily."

Ananya Gupta
5 years experience

Cognizant → Adobe

"I was doing okay at Cognizant, but my growth was slow. A colleague recommended Meritshot, and I decided to try it. They gave me honest feedback on every mock interview — sometimes brutally honest, but it worked. Within 10 weeks, I was at Adobe with a 333% hike."

Vivek Rathi
4 years experience

Mindtree → Salesforce

"I'd always dreamed of working at Salesforce but didn't know where to start. Meritshot became my roadmap. From brushing up on core concepts to nailing tricky HR questions, they covered it all. I got in with a 200% hike and the feeling is just... priceless."
