

Private AI for Insurance Brokerages

The Intelligent Hub Powering Sales, Service, Risk, & Operations

A *Private AI* acts as the central intelligence hub — connecting sales, service, underwriting, compliance, and analytics into one secure system that automates work, improves decisions, and elevates the client experience.

OPERATIONAL & POLICY INTELLIGENCE

- Automates policy comparisons, data entry, and form processing
- Streamlines claims processing, underwriting, and policy administration
- Instantly retrieves policy language & contracts using natural language
- Standardizes documents and generates first drafts with humans at the helm

SALES & GROWTH INTELLIGENCE

- Analyzes customer data for targeted marketing and personalized campaigns
- Builds ideal customer profiles and automates lead qualification and outreach
- Delivers predictive sales forecasting and opportunity scoring
- Identifies cross-sell and upsell opportunities based on client risk profiles

EMPLOYEE PERFORMANCE & ENABLEMENT

- Captures best practices and turns them into templates
- Provides AI-powered coaching, training simulations, and real-time guidance
- Optimizes staffing and utilization using skills, availability, and workload data
- Flags at-risk clients and accounts early for proactive intervention

ENHANCED CLIENT EXPERIENCE

- Proactive outreach driven by life events and changing risk profiles
- 24/7 AI-powered client support with intelligent escalation

MORE FEATURES

- Analyzes client, market, and competitor data to guide positioning and offerings
- Automated performance and client reporting
- Enterprise-grade security & compliance monitoring

REAL ROI FOR BROKERAGES

- 50%+ reduction in manual admin and policy processing work
- Faster sales cycles through automated lead qualification and personalization
- Improved retention via proactive, data-driven client engagement
