# Unleash the potential of your email signatures

For the past 12 years, we've been helping organizations create, manage, and deploy professional email signatures.

More than a digital business card, our solution makes your employees brand ambassadors.

Centralize & automate email signature management with a simple and robust solution

Hosted on

Azure

ISO 27018 Certified

Standardize your company email signatures
Ensure consistent branding across your organization. Easily create, manage, and deploy email signatures for all employees. No technical expertise needed!

Enhance your brand and communication visibility
Turn every email into a marketing opportunity. Add customized communication banners to your email signatures and precisely target your external campaigns.

Engage your employees
Foster a culture of knowledge sharing. Connect your teams and promote interaction by featuring internal projects and news directly within email signatures.
