

Email Signatures, Reinvented for Marketers

Letsignit

While competing solutions leave IT teams stuck simply harmonizing email footers, Letsignit empowers marketing and communications to turn every email into a dynamic engagement channel!

Discover our super-easy-to-set-up marketing features:

Time-bound Internal or External Campaigns

Letsignit automatically swaps both your email signature and promotional banner between external and internal communications— This ensures multi-channel campaigns for your external audiences and a clear alignment of your internal teams!

In-App Polls

Embed interactive polls or feedback widgets directly into signatures to capture real-time insights from every email.

Eco-Smart Signature Swaps

Replies and forwards get lighter, eco-friendly signatures automatically, ensuring consistency without the extra bulk.

AI-driven Template Hygiene

Leverage AI to audit your signature library, flag inconsistencies, and suggest template updates for on-brand perfection.

Multi-signature & multi-campaign management

Centrally create, assign, and schedule multiple signatures and banner campaigns across different user groups.

vCards

Instantly share your contact details with a modern, digital vCard that recipients can add to their address book in one click.

Random Campaign Rotation

Dynamically rotate banners and signature campaigns at random to keep emails fresh and maximize engagement.

Image & Signature Weight Alerts

Receive instant alerts when your signature or embedded images exceed optimal size, so you can keep campaigns lean.

Smart group creation

Auto-generate dynamic user groups from AD attributes (and subgroups in-platform) to deliver the right signature to the right audience.

Microsoft Teams integration

Seamlessly manage and deploy our Teams widget to continue your discussions within Teams.
