

# Egnyte Gen4 Platform Plan: Starter

For most organizations, the information buried in their corporate content is their most valuable, untapped knowledge asset and the most risk-exposed.

To turn their content into intelligence, while still protecting it from internal and external threats, companies need a single platform that combines the power of cloud content management, data security, and AI into one content cloud platform.

Egnyte allows any size company to discover insights and collaborate securely anywhere on any device, while still ensuring their content remains safe and compliant.

**Egnyte** Gen4 Starter is designed for small businesses and provides a modern file solution in the cloud with file server-like control and performance, cloud simplicity, and ease of migration.

## About Egnyte

- Founded in 2008
- 1000+ Employees across US, UK, Europe, APAC
- Focused on Mid-Sized Companies and Highly Regulated Industries
- Vertical Solutions: AEC, Life Sciences, Financial Services, Public Sector
- Trusted by 22,000+ Customers Worldwide

## Controlled Sharing & Collaboration

Locate, share and co-edit size-elastic files worry-free, regardless of location, device or document size.

## Basic Workflows

Improve productivity by quickly managing reviews, approvals and more with workflows.

## User Authentication

Egnyte integrates with many popular Single Sign-On (SSO) providers such as Okta, Google, Ping and many more.

## Easy Transition

User experience a familiar 'drive letter' experience, along with easy migration of files, folders and permissions.
