GUARD HANGERS

Guard Hangers allow you to easily hang flat guard panels onto other guards or handrails, improving ergonomics and access. They provide a convenient solution for storing guards when removed for maintenance.

EASY TO USE

- Easily installs on flat guards
- Hang guards on other flat guard panels or handrails

VERSATILE DESIGN

- Can be used with new or existing guards
- Compact design ensures there is no impact on equipment
- Improves ergonomics, especially when combined with handles
- Rubber coating provides anti-slip protection and scratch protection

BUILT-TO-LAST

- Powder and rubber-coated for increased durability

Simply bolt onto new or existing flat guards

Easy storage on other flat guards or handrails

Low profile design ensures minimum protrusion
