## **01** COMPANY OVERVIEW

Bringing Light into the Darkness

**GROUND 9**  
— F L O O R I N G —

# 01 COMPANY OVERVIEW:

*Ground 9 Flooring* is a specialized industrial flooring contractor delivering engineered flooring systems designed for durability, performance, and operational efficiency.

Since its establishment in 2019, the company has supported major industrial, commercial, and infrastructure developments by providing advanced flooring solutions tailored to demanding environments. By combining technical expertise, modern application methods, and high-performance materials, *Ground 9 Flooring* delivers flooring systems that enhance safety, productivity, and long-term asset value.

Operating across Egypt and Saudi Arabia, we partner with developers, consultants, and contractors to deliver reliable flooring solutions aligned with international standards.

## MISSION

To deliver high-performance flooring solutions through technical excellence, innovative systems, and efficient project execution, ensuring durability, safety, and cost-effectiveness for our clients.

## VISION

To be a leading regional provider of industrial flooring systems by setting new benchmarks in quality, technical performance, and customer trust.

# 01 COMPANY OVERVIEW:

## CORE STRENGTHS

- Specialized expertise in industrial flooring systems
- Engineering-driven approach to material selection and application
- Highly experienced technical teams and certified installers
- Advanced machinery and modern application techniques
- Solutions tailored to environmental and operational requirements
- Commitment to quality, safety, and long-term performance

## TECHNICAL CAPABILITIES

Ground 9 Flooring provides complete flooring solutions covering design support, substrate assessment, material specification, installation, and post-installation maintenance.

### **Our services include:**

- Industrial flooring installation
- Protective coatings and surface treatments
- Waterproofing systems
- Joint treatment and repair solutions
- Surface preparation and polishing
- Sports flooring systems

## 02 OUR SERVICES

Innovative Flooring Solutions

**GROUND 9**  
— FLOORING —

# 02 OUR SERVICES:

Our engineering-focused methodology ensures each system is selected based on environmental exposure, mechanical loads, hygiene requirements, and operational performance.

## About Terrazzo Flooring:

Terrazzo offers a timeless and elegant flooring solution made by embedding marble, quartz, or glass chips in a cement or polymer matrix. Once cured, the surface is ground and polished to achieve a smooth, durable finish ideal for high-traffic areas.

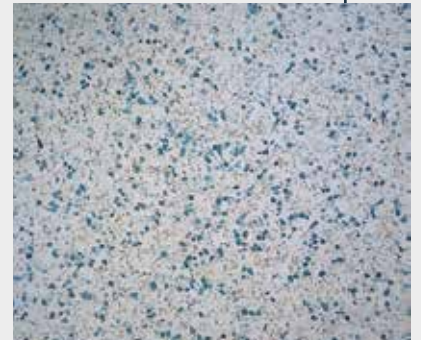

## Service Features:

- Classical aesthetics with rich design options
- Durable and resistant to wear and stains
- Low maintenance, long lifespan
- Customizable color and chip patterns

## Areas of Application:

- Airport Terminals
- Hotel Receptions
- Shopping Centers
- Restaurants
- Hospitals
- Universities
- Stairs

## 02 OUR SERVICES:

## Epoxy Flakes Flooring

### About Epoxy Flakes Flooring:

Decorative epoxy finishes scattering color flakes into a base coat and topped with a clear polyaspartic or clear epoxy coat for a texture, colorful, and durable surface.

### Service Features:

- Hides imperfections
- Easy to renew
- Slip resistance
- Color variety

### Areas of Application:

- Administrative offices
- Commercial buildings
- Reception areas
- Garages
- Showrooms, and retail spaces

## About Epoxy Coating Flooring:

Epoxy coating is one of the most reliable and durable flooring systems available today. It creates a seamless, high-strength surface that resists heavy traffic, impact, and chemical spills.

## Service Features:

- Excellent chemical and abrasion resistance
- Seamless, hygienic, and easy to clean
- Wide range of colors and finishes
- High compressive strength for heavy-duty use
- Long-lasting with minimal maintenance

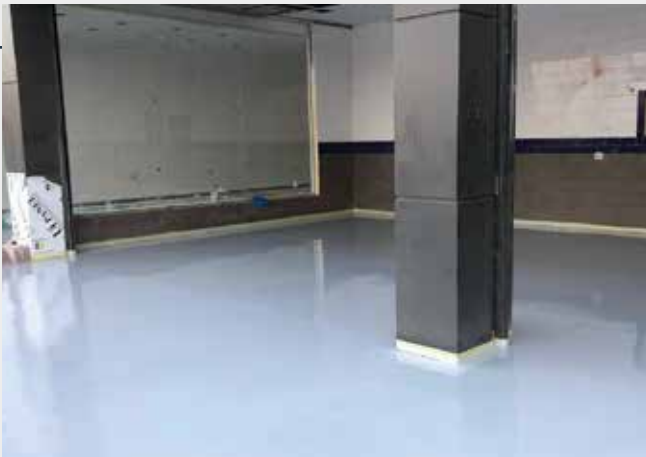

## Areas of Application:

Industrial, commercial, and high-traffic facilities including warehouses, factories, hospitals and retail spaces.

## About Polyurethane Coating Floors:

Polyurethane coatings provide a flexible, resilient protective layer for floors. They are ideal for areas exposed to UV, chemicals, or abrasion. Their elasticity and durability make them perfect for outdoor balconies, parking decks, and heavy-use zones.

### Service Features:

- Excellent UV and weather resistance
- Durable coat that resists impact and abrasion
- Provides slip-resistant finishes
- Long service life in exterior or heavy-duty applications

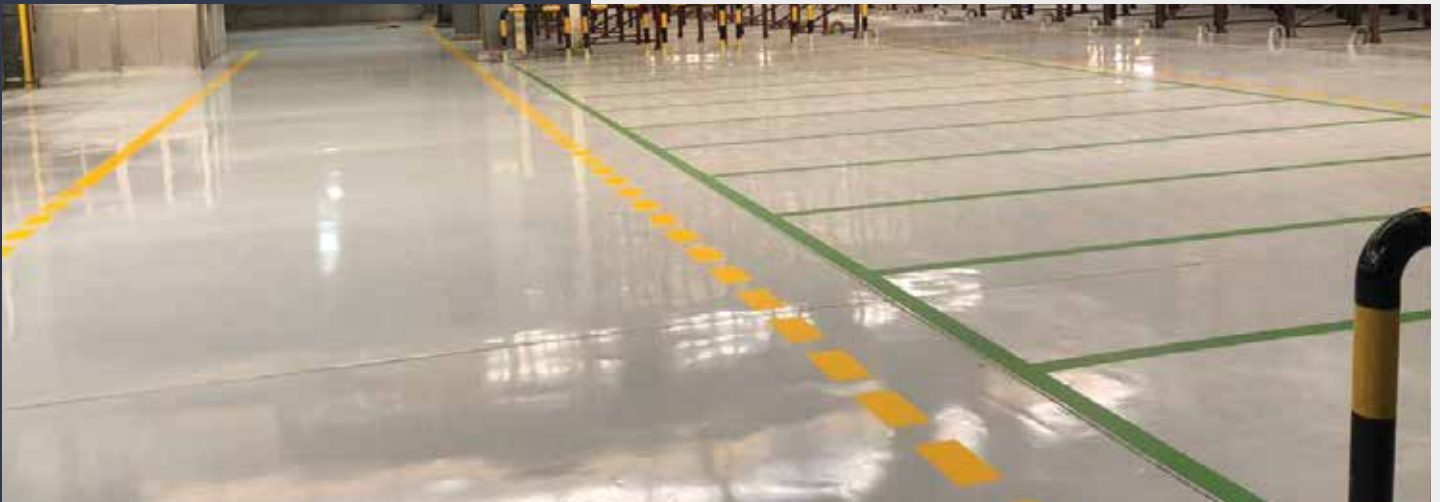

### Areas of Application:

- Outdoor floors
- Parking areas
- Rooftops
- Factories
- Commercial facilities

## 02 OUR SERVICES: *Self-Leveling Epoxy Flooring*

### About Self-Leveling Epoxy Flooring:

Self-leveling epoxy floors create a smooth, seamless surface by flowing into and leveling floor imperfections and curing into a high-strength, glossy finish. Commonly used in hospitals, factories, and showrooms where cleanliness and durability are a priority.

### Service Features:

- Fills cracks and smooths rough substrates
- Fast curing with minimal downtime
- Hygienic and easy to clean
- Available in various thicknesses and finishes

### Areas of Application:

- Hospitals
- Laboratories
- Pharmaceutical facilities
- Food production areas
- Warehouses
- Showrooms
- Parking garages
- Heavy-traffic commercial spaces

## 02 OUR SERVICES: *Self-Leveling Cementitious Floors*

### About Self-Leveling Cementitious Floors:

A Fine cement-based mixture that self-levels to create flat, smooth subfloors ideal for finishing or overlay applications.

#### Service Features:

- Smooth leveling
- Fast setting
- Strong base
- Indoor/outdoor use

#### Areas of Application:

Surface leveling for commercial, industrial, and renovation projects requiring smooth, durable concrete finishes.

# 02 OUR SERVICES: *Anti-Static Epoxy Flooring*

## About Anti-Static Epoxy Floors:

Floors designed to dissipate static electricity, protecting electronics and personnel in sensitive environments like labs and manufacturing.

### Service Features:

- Conductive layer
- ESD-compliant
- Safety
- Chemical resistance

### Areas of Application:

- Food processing facilities
- Pharmaceutical plants
- Laboratories
- Electronic manufacturing areas
- Clean rooms, and sensitive industrial environments

## Food-Grade Flooring (Polyurethane Screed Flooring)

### About Polyurethane Screed Flooring:

Floors engineered for hygiene, slip resistance, and durability under heavy loads and strict sanitation protocols in food processing environments.

### Service Features:

- Hygienic finish
- Easy cleaning
- Slip-resistant
- Chemical & heat resistance

### Areas of Application:

- Food processing factories
- Commercial kitchens
- Industrial facilities
- High-demand production areas

## 02 OUR SERVICES: *Cementitious Waterproofing*

### About Cementitious Waterproofing:

Waterproofing membranes and coatings that protect structures from moisture, UV damage, and structural leaks on roofs and terraces.

### Service Features:

- Weatherproof coating
- UV-resistant membranes
- Crack-bridging
- Adhesion

### Areas of Application:

- Roofs
- Balconies
- Wet areas
- Foundations
- Basements
- Water tanks
- Concrete structures requiring waterproof protection
- Waterproof protection

## About Polished Concrete Flooring:

Aesthetic and durable finish achieved by mechanically grinding and polishing concrete surfaces, resulting in high-gloss, low-maintenance floors.

### Service Features:

- High-gloss finish
- Stain resistance
- Eco-friendly
- Cost-effective

### Areas of Application:

- Warehouses
- Retail stores
- Offices
- Showrooms
- Restaurants
- Residential projects

## 02 OUR SERVICES: *Expansion Joint Treatment*

### About Expansion Joint Treatment:

Professional joint sealing system designed to accommodate structural movements, prevent cracking, and protect concrete floors from moisture and mechanical stress.

### Service Features:

- Flexible joint filling systems
- Crack control and protection
- Moisture resistance

### Areas of Application:

- Industrial floors
- Warehouses
- Parking areas
- Commercial facilities
- Concrete slabs subject to movement and heavy loads

## 02 OUR SERVICES: *Sport Flooring*

### About Sport Flooring:

Engineered athletic surfaces offering shock absorption, performance, and safety for gymnasiums, courts, and multi-sport halls

#### Service Features:

- Impact resilience
- Grip
- Customized lines
- Durable finish

#### Areas of Application:

- Gyms
- Schools
- Sports clubs
- Multi-purpose playgrounds
- Outdoor courts
- Indoor sports halls
- Running tracks

**03 QUALITY & SAFETY**

Safety Comes First

**GROUND 9**  
— F L O O R I N G —

# 03 QUALITY & SAFETY:

## QUALITY & ASSURANCE

Quality is ensured through strict adherence to industry's best practices, material standards, and controlled installation procedures.

Our commitment includes:

- Proper substrate preparation.
- Verified material compatibility.
- Continuous inspection during application.
- Performance-focused finishing standards.

## HEALTH & SAFETY POLICY

Safety is integrated into every project phase — from planning and mobilization through execution and handover.

Management Responsibilities:

- Implement preventive safety programs.
- Assign dedicated safety supervision.
- Coordinate safety planning with project stakeholders.

## Safety Officer Responsibilities:

- Enforce safety compliance.
- Monitor site conditions.
- Maintain risk control procedures.

## Workforce Responsibilities:

- Use required PPE.
- Follow safety protocols.
- Report hazards immediately.

## 05 MACHINERY

Quality in Details

**GROUND 9**  
— FLOORING —

## *PROJECT METHODOLOGY*

- Site assessment and substrate evaluation
- System design and material specification
- Surface preparation using advanced equipment
- Installation by trained professionals
- Quality control inspections
- Final handover and post-project support

## *COMPETITIVE ADVANTAGES*

- Engineering-based system selection
- Strong regional operational capability
- High-performance material systems
- Fast execution with consistent quality control
- Safety-first operational culture
- Long lifecycle cost efficiency

## *EXECUTION CAPACITY*

Ground 9 Flooring deploys trained installation teams supported by modern machinery and advanced application equipment, enabling efficient delivery of medium to large-scale projects with consistent quality control and scheduling reliability.
