

S&A Accelerates Its Territorial Development with an Establishment in Lyon and Expands Its Restructuring Offering

Nexia S&A continues its growth trajectory with an establishment in Lyon through a combination with Maxime Mazuy and his team. This transaction is part of the firm's development strategy and marks a new milestone with the nationwide deployment of a restructuring practice and the strengthening of transaction services activity in the Auvergne-Rhône-Alpes region.

Nexia S&A announces a combination with a firm founded and led by Maxime Mazuy, based in Lyon, which advises SMEs and mid-cap companies on financial restructuring and transaction services assignments.

After around ten years spent at major consulting firms, including Big Four and Eight Advisory, Maxime Mazuy built a **practice that is now well established in the market**. The firm generates over one million euros in revenue and relies on a team of seven professionals. Its activity primarily serves clients based in the Auvergne-Rhône-Alpes region, as well as in Paris and Marseille.

The transaction takes the form of **an entrepreneurial integration**: this activity joins Nexia S&A and Maxime Mazuy becomes a partner of the firm, with the objective **of steering and sustainably developing a restructuring practice within Nexia S&A, and of continuing to grow the Transaction Services activity in the Auvergne-Rhône-Alpes region.**

A New Step in Nexia S&A's Growth Strategy

This combination is part of Nexia S&A's development strategy aimed at offering a comprehensive service offering to CEOs, CFOs, and the broader financial ecosystem. As a **recognized audit, accounting, and advisory firm**, Nexia S&A further strengthens its capacity to support companies going through periods of stress and difficulty.

"This combination reflects a dual dynamic: enriching our offering, through the structuration of a restructuring practice within the firm, and strengthening our territorial presence, through an establishment in Lyon. Building on this foundation, we aim to support the firm's growth in the Auvergne-Rhône-Alpes region on a long-term basis, gradually expanding our core businesses there," says **Fabrice Huglin, CEO of Nexia S&A and Transaction Services Partner**.

Strengthening the Restructuring Offering Nationwide

Through this combination, Nexia S&A develops a **nationwide Restructuring offering**, responding to strong demand from companies, financial institutions, and court-appointed administrators. **Led by Maxime Mazuy**, this practice primarily targets SMEs and mid-cap companies facing financial or organizational difficulties. The approach favors early intervention and relies in particular **on Independent Business Reviews (IBR)**, providing an independent assessment of organizations' financial situations and their prospects for recovery.

A Strategic Presence in Lyon

The integration of this dual restructuring and transaction services activity also enables Nexia S&A to establish itself in Lyon, at the heart of the Auvergne-Rhône-Alpes region, France's second-largest economic hub. This presence aims **to strengthen the firm's proximity to regional business players while reinforcing its national positioning**.

In parallel, the transaction strengthens Nexia S&A's transaction services offering in the Auvergne-Rhône-Alpes region, **consolidating the firm's presence in this field** by leveraging synergies between the Lyon-based teams and those of Nexia S&A.

A Combination Built on Shared Values

*"The objective is to continue developing our activities by gradually integrating new service lines. The combination with Nexia S&A should also contribute to the growth of Transaction Services in the Auvergne-Rhône-Alpes region. Beyond these development goals, this project is above all grounded in shared values: **quality of client service, sustainable growth, and genuine care for our people**,"* says **Maxime Mazuy**.

Beyond professional and geographic complementarity, this combination is rooted in common values: **capital independence, quality standards, client proximity, and an entrepreneurial culture**. Nexia S&A **pursues long-term development**, built on the operational commitment of its teams and disciplined growth.

About Nexia S&A

Nexia S&A is a leading audit, accounting, and advisory firm, bringing together more than 540 professionals, including 59 partners, serving 4,500 clients — mid-cap and small-to-medium enterprises — in France and internationally. A trusted partner to finance functions, Nexia S&A stands out for its technical excellence, high standards of conduct, and commitment to its clients. Through the Nexia network, present in more than 120 countries, its teams support clients across five continents.
