

Nexia S&A honored as "Firm of the Year"

On November 13, 2025, Nexia S&A was presented with the international "Firm of the Year" award during the Nexia Global Conference held in Munich.

Awarded annually by members of the Nexia network, the "Firm of the Year" prize recognizes a firm that has made a significant contribution to the network through its direct commitment or through collaborations with other Nexia firms at both regional and international levels.

"This edition honors a firm whose involvement within the network has proven to be particularly remarkable," emphasized Matt Howell (CEO of Nexia).

This award also acknowledges the merger strategy initiated in recent years, which has allowed Nexia S&A—through a combination of strategic partnerships and organic growth—to reach a critical size and **double in scale within three years**. The firm has successfully managed complex transitions with fluidity, demonstrating assertive growth and long-term stability.

Alongside consolidating its position in the French market, Nexia S&A has strengthened its expertise and expanded its activities, contributing to an increased presence on the international market.

"These achievements reflect a solid and continuous momentum, driven by the firm's growth in France and recognized for its active participation within the Nexia network," says Jean-Baptiste Hervet, partner at Nexia S&A and member of the Nexia International Board.

This distinction also recognizes Nexia S&A's ability to serve the clients of foreign member firms in their French operations, as well as its capacity to support its French clients across all global regions where they operate, thereby contributing to the business development of other network members.

Finally, this award represents a **collective recognition of the teams' hard work**. It honors the commitment and investment of employees and testifies to the role played by Nexia S&A in the development and visibility of Nexia in France. It confirms Nexia S&A's weight within the network and the relevance of its international ambition.

A propos Nexia S&A

Nexia S&A is a major player in audit, accounting, and consulting, bringing together nearly 600 professionals, including 59 partners, serving 5,000 clients—ETIs and SMEs—in France and internationally. As a privileged partner of financial departments, Nexia S&A stands out for its technical excellence, high behavioral standards, and sense of commitment. Thanks to the Nexia network, present in over 120 countries, its teams support clients across all five continents.
