SPECIAL PRESENTATION

1. CART Opening School Report 2025-2026

C.E.O. Dr. Watson and Dean of Curriculum, Staci Bynum shared a CART 2025-2026 Opening School Report power-point with the Board highlighting first CART's state testing results and trends. Administration is very proud of our students for their improvements in scores. Historical data of the testing was shared to reflect CART's impact on the students' successes in the testing process.

CART Enrollment numbers have been a little bit of a challenge this year. We started with a great number of applications from both school districts. We have had many students retract their application. We have several retention efforts in place, such as New Student/Family Orientations held in March of each year, for students that have been placed through the lottery and Counselor contact for those wishing to retract their enrollment over the summer and or at the beginning of the school year.

26

MCU [Folmer/Awtrey] to approve the Consent Agenda.
