Resonata

EARLY ACCESS PROGRAM · MYASTHENIA GRAVIS

See the MG treatments and clinical trials you qualify for, in one place.

Resonata is a free app for people living with myasthenia gravis. You answer a few questions about your MG, and you immediately see the approved treatments and clinical trials you qualify for, with the reasons for each one.

Simulated patient

WHAT YOU'LL SEE

- **Approved treatments and active clinical trials**, in one list.
- **Matched to your own health history.**
- **Eligibility explained.** You'll know how you qualify.
- **Access to clinical trials.** Location sorting and an Apply button.

HELP US TEST IT

We're inviting a small group of people with MG to try Resonata early. To complete the test:

1. **Go to resonata.health** and start by answering a few questions about MG.
2. **Check out your matches** to treatments and trials.
3. **Register** to start an account.
4. **Open a few care options** and click around a bit.
5. **Answer a few questions** to clarify your matches.
6. **Optional:** Connect your medical records, or upload a medical document.

When you're done, fill out the short online survey. Step-by-step instructions and the survey link are on the back.

You can delete your account at any time, or we'll help you do it. There is no commitment to use Resonata, but we hope you'll want to and that you'll tell your friends.

$50 AMAZON GIFT CARD

A thank-you for your time. Complete the steps (step 6 is optional) and the survey, and we'll email you a $50 Amazon gift card.
Limited supplies. Try it today.

FREE AND PRIVATE

Resonata is free to use. It is HIPAA compliant, your health data is encrypted, and we never share your information without your consent.

YOUR DECISIONS

Resonata doesn't recommend treatments. Bring the options you find to your provider. Treatment decisions stay with you and your care team.

Detailed instructions, when you're ready to go

The same six steps as the front, in more detail. When you're done, scan the QR code at the bottom of this page to fill out the survey.

1. **Go to resonata.health** and click **Patient Signup**, then **Explore Care Options**. Pick Myasthenia Gravis (MG) from the menu, and answer a few questions about your condition.

2. **Check out your matches** to treatments and trials.

3. **Register to start an account**, and then log in with the link we send you. After you log in, we ask you to authorize access to your health data and to confirm your date of birth and sex.

4. **Open a few care options and click around a bit.** Browse the overview information, eligibility, and locations. Try the bookmark (star) and suppress (down arrow) buttons, and the filters above your list: **All matches** shows only Full, Maybe or Near matches; **Any category**, **Any type**, **Any class** and **Any phase** narrow your list; **Saved** shows the options you bookmarked.

5. **Answer a few questions to clarify your matches.** Click the purple **Clarify your matches** button above your list and answer what you can. Feel free to skip what you don't know. Then click the Maybe Matches tile at the top of the screen, open any Maybe match, and click its **Clarify this match** button.

6. **Optional:** tap **Connect records** to authorize your medical records, or upload a medical document.

WHEN YOU'RE DONE

Fill out the short online survey
