Challenging Boundaries in Digitalization Research: Towards Inclusivity and Fairness

We call for contributions to the 2025 edition of the IRIS seminar and SCIS conference. The IRIS seminar and the SCIS conference are combined into one event over 4 days. Established in 1978, the IRIS seminar is the leading venue for Nordic IS researchers to gather and share their recent research endeavors in work groups. The SCIS conference consists of conference papers being presented and discussed in the conference format, single track. The IRIS community is characterized by its informal, convivial atmosphere where research ideas are workshopped in an egalitarian, Scandinavian way.

Conference venue: Oscarsborg Fortress Hotell, Drøbak, Norway
