September 24, 2025

To Whom It May Concern,

I am pleased to recommend **Azimuth Builders Ltd.** following their successful completion of the **Acme Transport** project.

From start to finish, Azimuth Builders demonstrated dependability, professionalism, and a high level of effectiveness in managing every detail of the project. Their transparent communication, strong commitment to safety, and ability to find practical solutions under pressure made the entire process smooth and stress-free for our team.

The final result not only met but exceeded our expectations. We were particularly impressed by their attention to detail, adherence to schedule, and collaborative approach.

We would not hesitate to work with Azimuth again and confidently recommend them as a trusted and capable construction partner.

Sincerely,

Amarjit Kailey
