COMMERCIAL FLOORING SPECIALISTS SERVING
NEW JERSEY • NEW YORK • CONNECTICUT • PENNSYLVANIA

ABOUT US

Surface Solutions Consulting is celebrating our 15th year as a leading installer of Polished Concrete, Epoxy, Self Level and Concrete Topping contractor.

We maintain an active status with Local 947 and offer competitive pricing in both Union and Open Shop projects. Here at Surface Solutions, our corporate culture shines through in every project we complete. The majority of our team has been with us for more than 7 years and work together like a well oiled machine.

With 15 years experience, active project management protocol and an expert team of estimators, we can work directly with your team and architects to help build projects from the spec up.

At Surface Solutions, our top goal is a zero punch floor. That means when we load out, the floor is done and ready for service. Always built on time and on budget.

Please take a look at the following recent project profiles as examples of our work.
