

CONTROL PANEL

10.1-inch Desktop Touchscreen

PRODUCT OVERVIEW

The Loud of Sweden Control Panel is a compact desktop touchscreen designed for control of the Loud of Sweden DSP-88 audio matrix processor. Its L-shaped stand and capacitive touchscreen provide a convenient local operator interface for installed audio systems.

KEY FEATURES

- 10.1-inch IPS display with 800 × 1280 resolution
- 10-point capacitive multitouch
- Rockchip RK3288 quad-core processor
- 2 GB RAM and 8 GB internal storage
- Ethernet (RJ45), Wi-Fi and Bluetooth connectivity
- DC power input and PoE interface
- Desktop L-shaped enclosure

TECHNICAL SPECIFICATIONS

Product name	Control Panel
Display	10.1-inch IPS
Resolution	800 × 1280 pixels
Touch technology	10-point capacitive
Processor	Rockchip RK3288, quad-core
Memory	2 GB RAM
Storage	8 GB ROM
Operating system	Android (version varies by configuration)
Connectivity	Wi-Fi, Ethernet, Bluetooth

CONTROL PANEL | TECHNICAL DETAILS

Interfaces	RJ45, USB Host 2.0, Mini USB OTG, SD card slot
Power interface	DC IN, PoE
Mounting / form factor	L-shaped desktop stand
Intended application	DSP-88 control

APPLICATION & INTEGRATION

Designed as a local touch interface for the DSP-88 audio processor. Available functions depend on the installed control application and DSP-88 configuration. Confirm network and PoE requirements before installation.
