

RAL K7 COLOUR CHART

RAL is a colour matching system created in the 1920's that standardized colour for paint, coatings and plastics. RAL allowed crafts people and manufacturers of all types to seamlessly communicate colour specifications. It remains the standard over 100 years later with revisions in 1961 and most recently 2020. The RAL standard is administrated by the RAL Deutsches Institut für Gütesicherung und Kennzeichnung, located in Bonn (Germany).

All of our products are powder coated in any RAL K7 colour of your choosing. This chart includes 205 colours from the RAL Classic colour collection which can all be seen below.
