

URBAN NOODLE

[wavy block configuration]

URBAN NOODLE

Bring a sense of playfulness to any place by adding a wavy new seating.

Public spaces thrive on versatility, creativity, and connection. Pocket Blocks are designed to deliver all three—empowering communities to transform overlooked corners and empty stretches into dynamic social hubs. These modular benches and planters are more than just furniture; they're tools for urban alchemy. With a family of interconnecting forms—including rectangles, squares, wavy blocks, hemispheres, and backrests—Pocket Blocks invite endless possibilities for customization. Group them, line them, curve them. Create cozy nooks, flowing benches, or expansive statement gathering spots.

Urban life is dynamic—your furniture should be, too. With Pocket Blocks, every space can be a stage for connection, creativity, and culture.
