

CORPORATE EVENT PRODUCTION

Corporate Event Production in Los Angeles, CA

Conferences, summits, and corporate events, produced end to end. In the city where the bar is set by the industry itself.

OVERVIEW

Corporate Event Production in Los Angeles, CA happens in front of the toughest audience in America. This is the entertainment capital. Walt Disney is headquartered in Burbank. Live Nation Entertainment is headquartered in Beverly Hills. Paramount Pictures sits in Hollywood. When your attendees produce entertainment for a living, they notice everything: the staging, the pacing, the content between the sessions.

That is the room we walk into. We are a full-service event production company, and we produce events in Los Angeles every year. Planning and management. Technical production. Show and on-site execution. Event creative. One team from first walkthrough to final load-out, whether you need full production or a specific capability added to your existing team.

Corporate demand here is media-led, not HQ-led. Studios, live-event companies, and the brands that orbit them put on conferences, launches, premieres, and summits that have to feel like the industry they come from. We bring production discipline sharpened across 25 cities and the one thing this market does not get from every local vendor: events, video, and marketing under one roof, so your stage, your story, and your campaign are built together.

LOCAL INSIGHTS

The Los Angeles Convention Center anchors downtown with over 720,000 square feet of exhibit space and 64 column-free meeting rooms, and it is mid-transformation: a \$2.6 billion expansion broke ground in October 2025, adding a 98,000-square-foot rooftop ballroom ahead of the 2028 Olympics. We work it knowing the labor rules and load-in realities. Steps away, the L.A. LIVE district pairs Crypto.com Arena with the JW Marriott and Ritz-Carlton for conferences that need hotel, arena-scale sessions, and nightlife in one footprint. The Beverly Hilton brings the International Ballroom and the prestige of the Golden Globes' longtime home. The Petersen Automotive Museum turns product launches and galas into events with a built-in backdrop. Fairmont Century Plaza and the Skirball Cultural Center cover Century City and the Westside for executive gatherings and multi-day programs. LA permitting runs through FilmLA for anything touching streets and public space: we build it into the timeline from day one, the same way we handle permits at home.

WHY SIMPLE

Nobody has to look far for production companies in Los Angeles. Most of them show up with gear and wait for instructions. We show up with a plan and take ownership of the show. Twenty-plus years of multi-day, high-stakes productions taught us what this market respects: precision in the technical, taste in the creative, and zero surprises for the client.

Simple is headquartered in Washington, DC, with production teams traveling to 25 cities nationwide. Our world-class producers fly in, so you get our standards, our accountability, and people who know your event. We hire local crews, rental houses, and stagehands, so you get people who know the building, and local labor is covered without shipping gear cross-country. Travel is part of how we quote, never a surprise line item.

And because video and marketing live under the same roof, the event does not end at load-out. The sizzle reel, the session recordings, the social cuts, and the follow-up campaign come from the same team that produced the show. One producer, one call, one standard: the work is right, on time, and on budget.
