

CORPORATE EVENT PRODUCTION

Corporate Event Production in Washington, DC

Conferences, summits, and corporate events, produced end to end. Bring us a plan or bring us an idea.

OVERVIEW

Washington is our home turf. We have produced some of the District's defining moments, from the Broccoli City Festival to DC Startup & Tech Week, across downtown venues, festival grounds, and broadcast stages.

DC runs on events. Thousands of national associations are headquartered here. Federal agencies, defense contractors, and a growing tech corridor all compete for the same stages, the same venues, and the same audiences. Standing out takes more than logistics. It takes production that understands what this market responds to.

We handle every aspect of event production: planning and management, technical production, show and on-site execution, and event creative. One partner, one team, from first walkthrough to final load-out. Whether you need full production or a specific capability slotted into your existing team, we build the approach around your goals.

LOCAL INSIGHTS

The Walter E. Washington Convention Center anchors downtown, and we know how to work it: union labor rules, in-house AV coordination, load-in logistics. Beyond the convention center, DC rewards producers who know the terrain. The Ronald Reagan Building and International Trade Center for summits with presence. The National Building Museum for receptions with scale. The Anthem at The Wharf for general sessions with energy. Gaylord National Resort at National Harbor for multi-day conferences that need everything under one roof.

The Square is a strategic partner venue in the Golden Triangle, and one we produce in often. Its glass-canopied Atrium scales from receptions to galas of up to 800, its Conference Center handles board meetings and summits, and its chef-driven culinary collective handles the catering in house, steps from the White House and the Metro.

Permitting is its own discipline here. Street closures, amplified sound, events near federal property: each has its own process and its own timeline. We manage it as part of production, not as a surprise.
