

Reporting: Measuring the Impact of Rain

Rain's robust reporting platform is designed to deliver actionable insights to help you measure and maximize the impact of your Earned Wage Access program. Our in-house analytics team developed **four comprehensive reporting solutions** to make monitoring success metrics and driving performance a seamless and collaborative experience.

✓ Self-Service Portal

- Real-time metrics and administrative tools available 24/7
- Key insights:
 - All-time statistics (eligible employees, active users, transacting users)
 - Employee savings estimates
 - Employer insights (turnover rates, retention, tenure, productivity)
- Additional tools such as adjustment reports, employee activity tracking, timekeeping sheets

✓ Standard Executive Dashboard

Automated delivery of executive-level metrics:

- Employee eligibility, sign-ups, and active usage
- EWA payment trends
- Adoption rates over time
- Metrics by employer groups and locations

✓ Custom Client Reporting

Your dedicated Customer Success Manager will work closely with you during implementation to determine your reporting needs and develop tailored reports including metrics on improved employee turnover, retention, tenure, and productivity—all of which can be broken down by employee subpopulations, such as location.

✓ Quarterly Business Review

At the end of each quarter, you'll receive an in-depth analysis of daily, weekly, and monthly performance plus additional insights like employee feedback and EWA transaction trends.
