

# ELEMENTI

PRODUCT BROCHURE FOR THE NEW RE:GAL COLLECTION - A MODULAR SYSTEM OF REFINED METAL STRUCTURES.  
THIS BROCHURE OUTLINES THE CURRENT COLLECTION OF ELEMENTI, DESIGNED AND PRODUCED IN CROATIA. 2025.

# WHO ARE WE?

A newly founded Croatian brand, designed and produced locally. We produce functional parts of everyday life, reimagined with purpose and a spark of joy.

With over 30 years of experience in metal-work, we've built for others long enough to know what matters: precision, durability, and clarity. Now, we're turning that knowledge inward, to create pieces that speak the language of engineering but whisper with personality.

Our vision is clear: we fixate on everyday elements with the intent of reimagining their functionality and appeal - making something interesting out of what no one expects to be. A bracket, a handle, a connector, things overlooked, until they're not. The ordinary deserves imagination. You'll find us where technical drawing meets design thinking. Where structure becomes character. Where rawness feels intentional, and joy lives in the details. We work with discipline, but we design with curiosity. For you to enjoy the element of detail.

# COLLECTION OVERVIEW

re:gal

re:gal evolves from archive shelving into a modular storage system designed for offices, workshops, stores, and homes. Built from L- profiles, shelves, and versatile add-ons, it enables endless possibilities of storage elements.

re:plant  
35 x 43 x 35

re:450\_01
