

# i-ESG Solution – Use Case

AI-powered ESG Risk & Data Management Solution (#Integrated #DATA-driven #AI-powered)

## Use Case: AI-powered ESG Readiness Assessment For Multi-Industry Organizations

Industry: Cross-Industry

Organization: All Types (Enterprise, Startups, Suppliers)

Solution: Readiness Assessment Module

### Pain Points & Challenges

**ESG Maturity Uncertainty & Compliance Confusion:** Organizations struggle to understand their current ESG readiness level and where to begin their sustainability journey. With rapidly evolving global regulations (CSRD, CSDDD, SEC Climate Rules) and multiple frameworks (GRI, SASB, TCFD), companies face overwhelming complexity in baseline assessment.

#### Key Challenges:

- "Are we doing well with ESG?" - Lack of measurement against industry benchmarks
- "There are too many standards. It's hard to know where to begin."
- No structured methodology to assess ESG maturity across Environmental, Social, and Governance dimensions
- High cost of external consultants (\$30K-\$50K) for basic ESG gap analysis and readiness assessment
- Time-intensive manual evaluation processes taking 2-3 months to complete
- Difficulty identifying material ESG issues relevant to specific industry and stakeholder expectations
- Lack of customized improvement roadmap aligned with organizational context (startup vs. enterprise, B2B supplier requirements)
- Limited internal ESG expertise to interpret complex regulatory requirements and translate into action plans

**Business Impact:** Delayed ESG program launch due to uncertainty, missed business opportunities (customer RFPs requiring ESG credentials), regulatory non-compliance risk exposure, and inability to respond to supplier due diligence questionnaires (CSDDD, supply chain laws).

## Solution Coverage

**i-ESG AI-powered ESG Readiness Assessment** provides intelligent, automated ESG maturity evaluation with AI-generated insights and customized improvement roadmap - delivering consultant-grade analysis at a fraction of the cost and time.

### Core Capabilities:

- **Self-Assessment Questionnaire (SAQ):** Comprehensive questionnaire based on major global frameworks (GRI, CSRD, CSDDD, TCFD, SASB, CDP) and most frequently asked ESG questions (over 90% mapping with major requirements)
- **Multi-Format Questions:** Combines multiple-choice and open-text questions for nuanced evaluation across all core ESG areas (Environmental, Social, Governance)
- **AI-Powered Analysis:** Advanced AI algorithms analyze responses and generate intelligent insights with gap identification and prioritization
- **Customized Assessment Types:**
  - ✓ *Company ESG Assessment:* Comprehensive evaluation for businesses based on ESG standards from major corporations and assessment agencies
  - ✓ *EU Supplier ESG Assessment:* Specialized evaluation for EU Corporate Sustainability Due Diligence Directive (CSDDD) compliance and supply chain requirements
  - ✓ *Startups ESG Assessment:* Tailored assessment for startups to identify material ESG requirements and build foundation
- **Benchmark Comparison:** Compare your ESG maturity against industry peers and global standards
- **Auto-Report Generation:** 50+ page comprehensive assessment report with customized AI-driven improvement recommendations

**Implementation:** Instant access to online assessment platform and complete questionnaire in 2-3 hours, receive timely AI-generated report upon completion, review findings, and develop implementation roadmap with i-ESG experts (if needed).

## ROI & Value Proposition

### Quantifiable Benefits within 12 months:

**90%**

Cost Reduction

**95%**

Time Reduction (3 weeks Vs. 3 Months)

**100%**

Framework Coverage

### Value Drivers:

- **Immediate Clarity:** Understand your ESG maturity level and gap areas within 24 hours without prior expertise
- **Cost Efficiency:** \$1K-\$5K investment vs. \$15K-\$30K for traditional consulting-based gap analysis
- **Risk Mitigation:** Identify compliance gaps before regulatory deadlines
- **Strategic Planning:** Data-driven ESG roadmap prioritizes high-impact initiatives aligned with business materiality
- **Competitive Advantage:** Respond to customer RFPs and supplier due diligence questionnaires with confidence
- **Benchmark Intelligence:** Compare against industry peers to identify competitive gaps and opportunities
- **Accelerated Launch:** Reduce ESG program development time from 6-12 months to 2-3 months
- **Customized Roadmap:** AI-generated improvement recommendations tailored to your organization type, industry, and maturity level

**ROI Calculation:** Assessment cost of \$2K delivers \$15K-\$30K savings (vs. consultant fees), accelerates ESG program as soon as practicable upon AI-powered improvement feedback, and prevents potential regulatory penalties. Total implementation cost of \$2K delivers \$50K annual savings, achieving 25x ROI in Year

## Customer Success Story

"We were completely overwhelmed by ESG requirements from our European customers. The i-ESG Readiness Assessment gave us instant clarity on where we stood and what we needed to prioritize. The AI-generated report was as comprehensive as the \$30K consultant proposal we received, but we got it in 2 hours for a fraction of the cost. The customized improvement roadmap became our ESG strategy blueprint."

— Chief Sales Officer, Mid-size Manufacturing Supplier

### Implementation Results:

- Completed comprehensive ESG assessment across **100+ evaluation criteria** in 3 hours
- Received detailed 50-page AI-generated report with **improvement actions**
- Benchmark analysis showed **38 ESG maturity** vs. industry average of 58, with clear gap closure plan
- Developed 24-month ESG roadmap with phased implementation and **estimated \$2.3M investment requirement**
- Successfully responded to 7 **customer ESG questionnaires** within 2 months using assessment insights
- Qualified for **sustainability-linked financing** with 0.5% interest rate reduction

## Next Steps

**Ready to discover your ESG maturity level and build your roadmap?**

Start your AI-powered ESG Readiness Assessment today and timely receive your comprehensive evaluation report.
