- Improves your connection to your partner
- Cutting-edge technology
- Only FDA-approved device that treats orgasm dysfunction in women
- Clinically proven results
- Quick, in-office procedure
- 100% safe
- No downtime

ABOUT US

Led by Dr. Hannah Shehata, MHA provides top-tier medical care for women. Our office specializes in gynecologic care for women ages 35-70 years old. Our goal is to help women be the best version of themselves inside and out.

We recognize that female sexual health concerns are often brushed aside, especially as women get older. Therefore, MHA specializes in treating women who are in menopause and/or going through the changes of menopause. Our office offers innovative treatments for urinary leakage, loss of sexual desire, decreased sexual sensitivity, and painful sex. We also offer bioidentical hormone replacement therapy.

SEXUAL DYSFUNCTION?
MEET DUO!

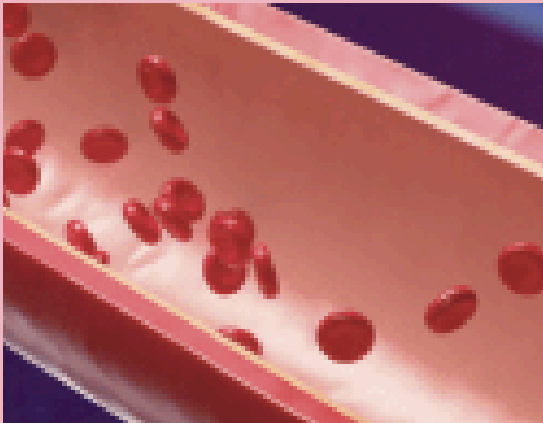

Emphasizing Female Sexual Health

WWW.MHA4WOMEN.COM

WHY CONSIDER TREATMENT FOR SEXUAL DYSFUNCTION?

Our DUO is a painless, in-office procedure that treats sexual dysfunction in women. It increases blood flow to the clitoris to improve sexual arousal and clitoral sensation. This means intimacy is more pleasurable and more intense. The DUO is the only FDA-approved device that treats both men and women for erectile/orgasm dysfunction.

WHAT IS DUO?

The DUO is a low-intensity shockwave therapy that uses gentle vibration to break up old blood vessels in the genitals. This forces the body to create new blood vessels in the area, which increases blood flow. The DUO penetrates almost 3x deeper than any other shockwave device on the market, making it the most effective option to restore the intimate bond between partners. The DUO treats female sexual dysfunction, including the inability to become aroused and achieve an orgasm.

THE BENEFITS OF A HEALTHY INTIMATE CONNECTION

- Increases feelings of closeness to your partner
- Enhances the emotional bond between partners
- Improves relationship satisfaction
- Improves self-esteem and self-confidence
- Improves both partners overall sense of wellbeing through mutual pleasure

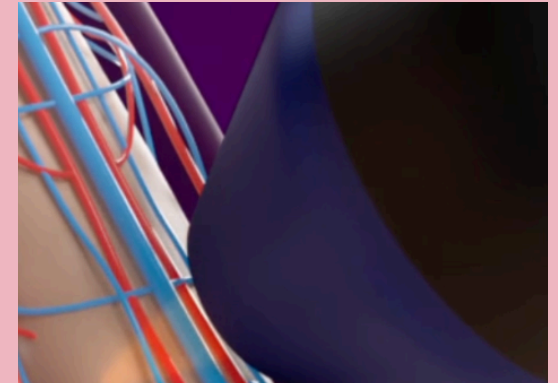

THE BENEFITS OF A HEALTHY SEX LIFE

- Releases oxytocin and endorphins
- Relieves stress
- Decreases anxiety and depression
- Strengthens your immune system
- Improves your quality of sleep
- Reduces the frequency of headaches
- Maintains your pelvic floor muscle strength
- Promotes vaginal lubrication
- Improves bladder control
- Helps relieve menstrual cramps

LET DUO HELP YOU AND YOUR PARTNER RECONNECT!

IS THE DUO EFFECTIVE?

Yes! The DUO is the only FDA-approved device that is clinically proven to help women who experience sexual dysfunction due to diminished clitoral sensation. After just six treatments, most women report a significantly better sex life with their partners.

WHAT SHOULD I EXPECT DURING MY TREATMENTS?

During this in-office procedure, a wand is gently placed on the outside of the genitals. It is not invasive, but you will be required to undress from the waist down. A DUO treatment lasts approximately 15 minutes. The treatments are safe, painless, and require no downtime.

A course of six treatments over three weeks is recommended for optimal results. Additionally, an annual touch-up treatment is recommended to keep you at your sexual peak.
