Stunning
stone finishes start here

Finding your *dream finish*

This brochure is designed to take you on a journey from inspiration to installation while answering your key questions along the way.

If you already know where you're going we've provided one-click navigation directly to your area of interest. Simply use the menu on the right.

But if you're new to the process of specifying a stone work surface, simply follow the pages in order, explore our stunning collections and let us know how we can help.

We think this is the most fun part of any project and aim to make it as easy as possible. If there is anything specific to your project we haven't covered, please let us know, our team is always happy to help.

Our continuous investment in equipment and our people translates into beautiful finishes every time, and by coming direct you secure the very best results at highly competitive prices.

About Us

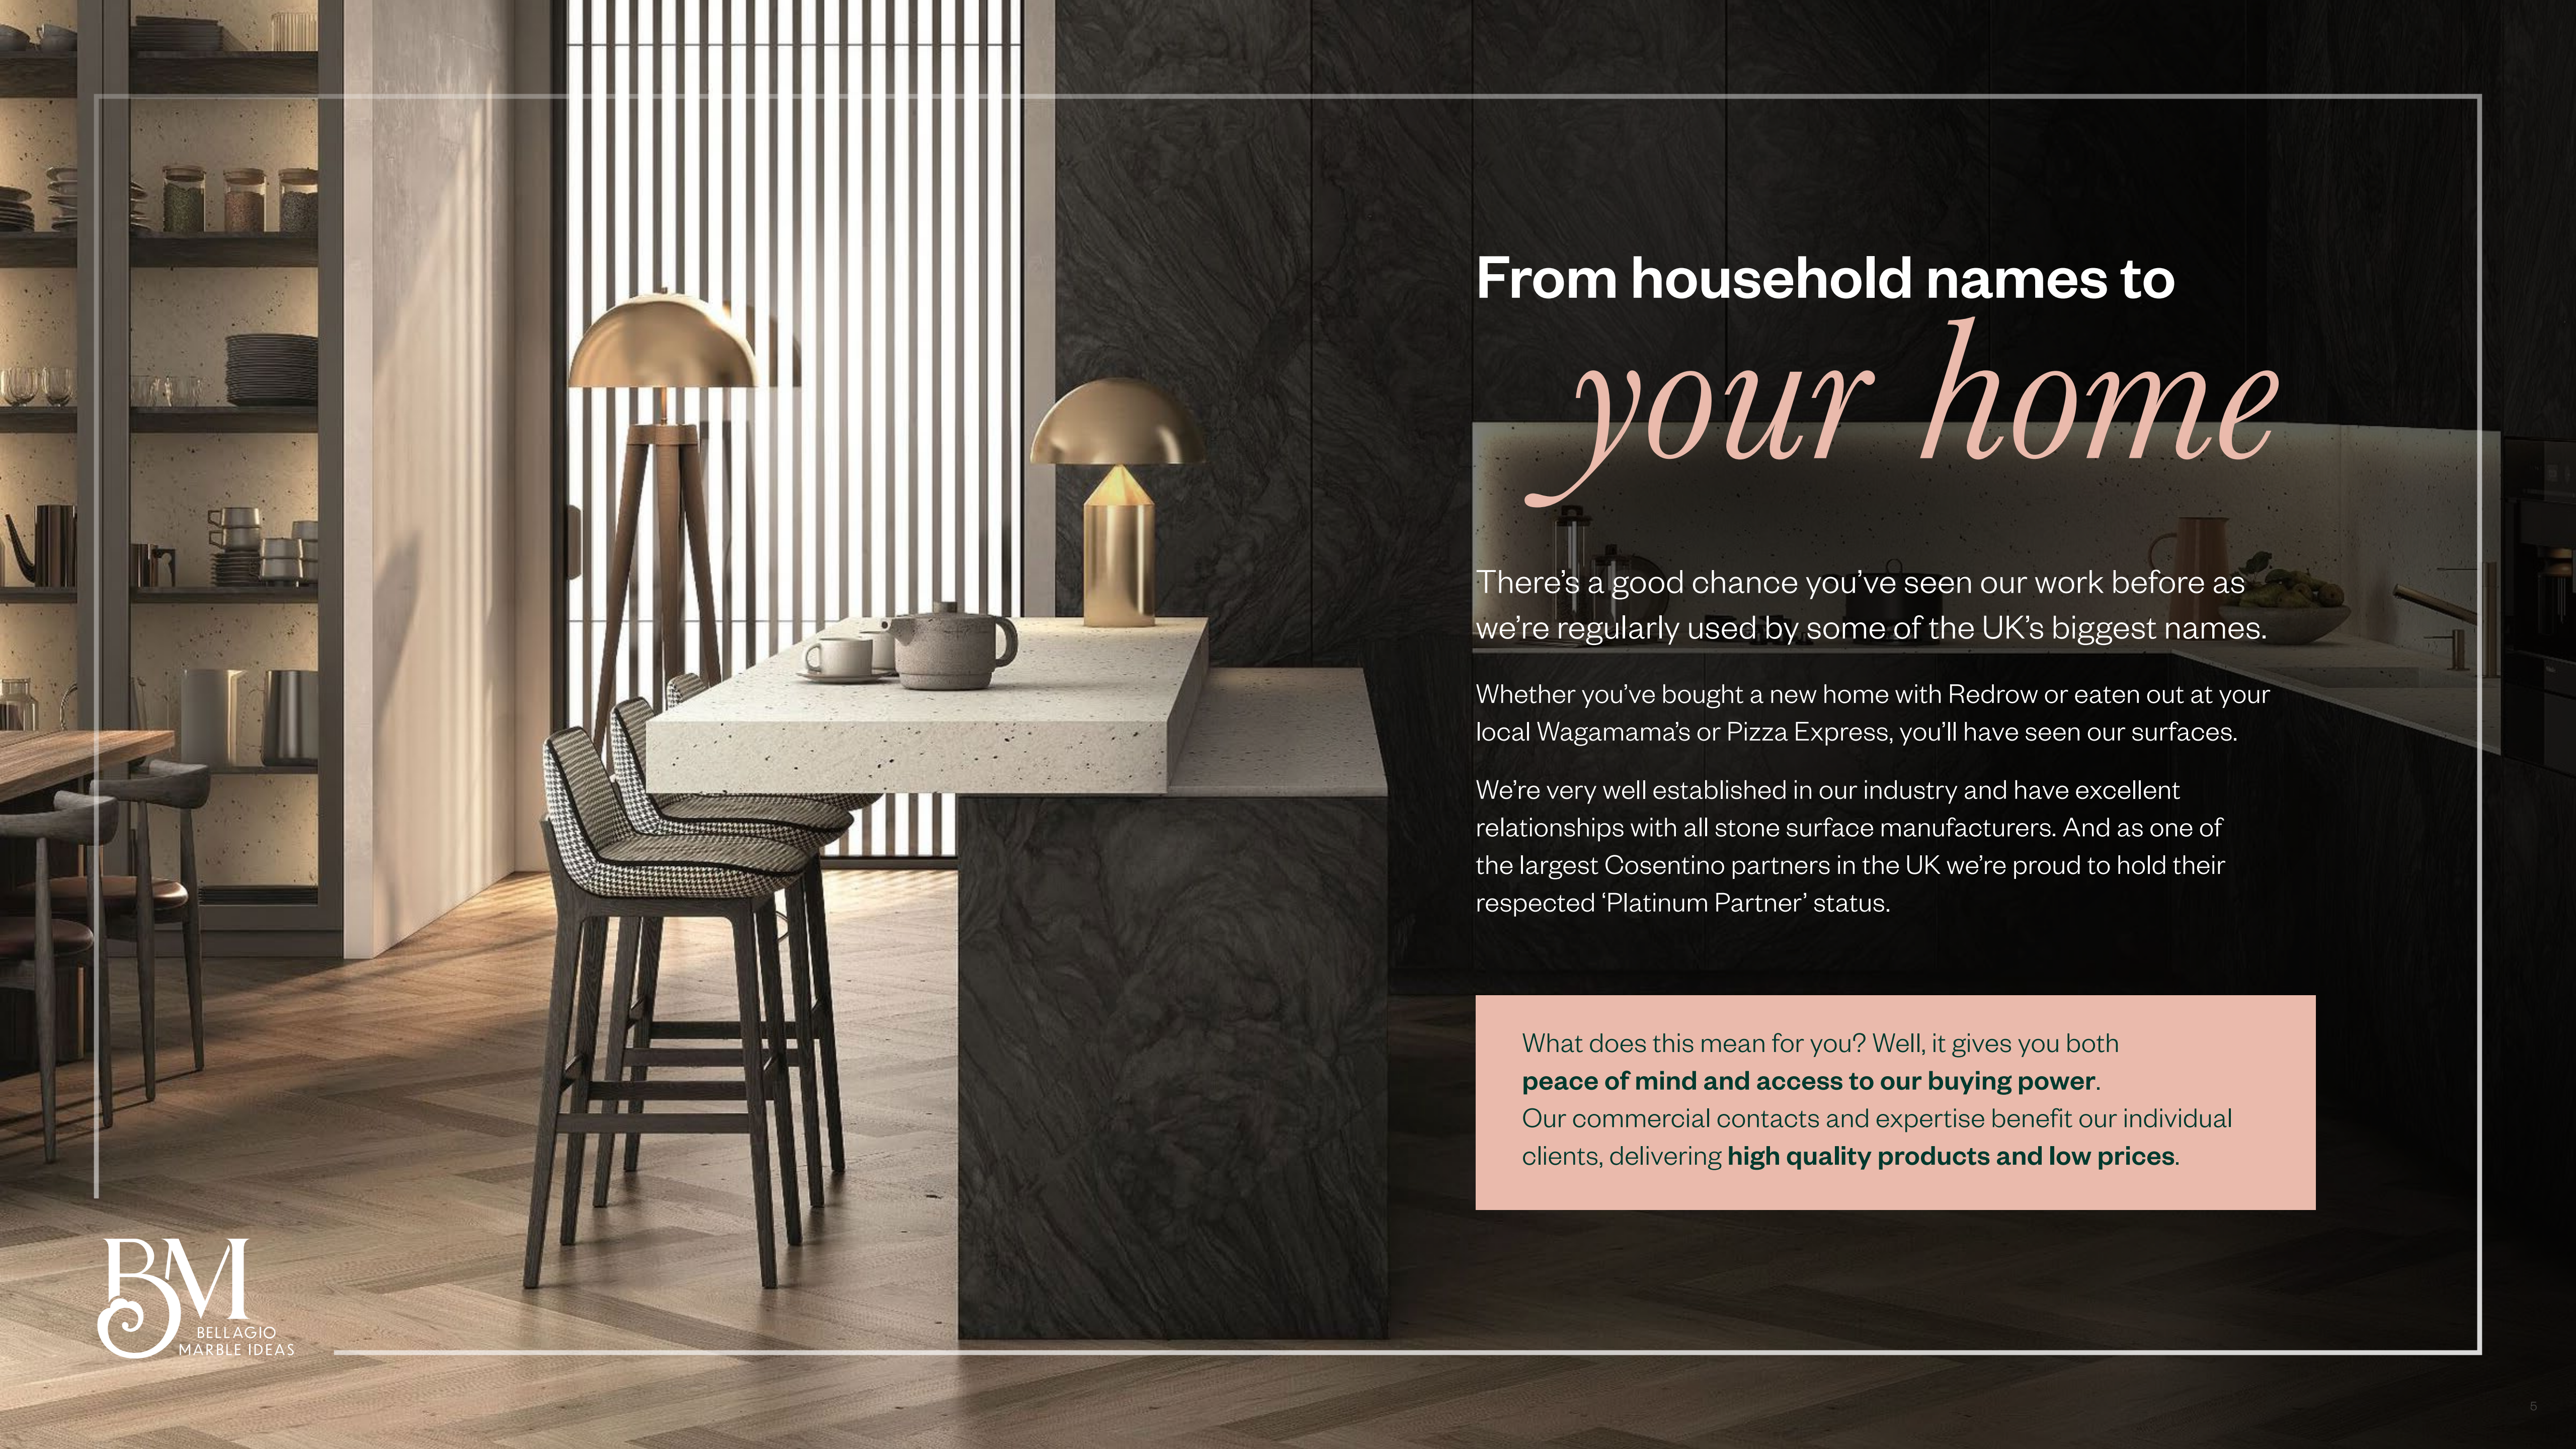

You're in the *best hands*

We are award-winning stone surface specialists and we've been producing beautiful bespoke kitchen and bathroom counter surfaces since 2003.

As experts in our field we are passionate about providing the best the industry has to offer – at remarkable value. Our hard-earned reputation has been built with superb materials, exceptional workmanship, cutting-edge technology, and highly personalised customer service.

We're proud to promise you couldn't be in better hands.

From household names to *your home*

There's a good chance you've seen our work before as we're regularly used by some of the UK's biggest names.

Whether you've bought a new home with Redrow or eaten out at your local Wagamama's or Pizza Express, you'll have seen our surfaces.

We're very well established in our industry and have excellent relationships with all stone surface manufacturers. And as one of the largest Cosentino partners in the UK we're proud to hold their respected 'Platinum Partner' status.

What does this mean for you? Well, it gives you both
peace of mind and access to our buying power.

Our commercial contacts and expertise benefit our individual clients, delivering **high quality products and low prices.**

It's all about *you*

Our team has years of experience and know just the right questions to help you discover your perfect stone work surface.

From colours and collections to edge profiles and material properties, we provide a personalised, one-to-one consultation service.

Whether in person at our inspirational showroom, or via video call, we connect and learn about you and your needs before taking you on the exciting journey to finish your dream project.

Once all decisions have been made, we come to you to template and install at your convenience and to your timelines.

We love what we do and we know – it really is all about you.

Our stunning
showroom

“

The team at Bellagio have been extremely helpful throughout our journey, answering multiple questions promptly and professionally, with nothing too much to ask. The whole process ran smoothly and very quickly. We had a number of quotes prior to Bellagio, none of which came close to what Bellagio could offer in terms of both price and service.

Ash Turner

An excellent job from start to finish. Bellagio do what they say, when they say and the quality is exceptional! The advice we received was very practical and tailored to our needs. The options on price were made very clear and recommendations made on how we could save money without sacrificing quality. Thoroughly recommend.

Bob S

From start to finish Bellagio Stone were fantastic. With help choosing the right quartz for our new installed kitchen, the fitters measuring for the template and fitting within a week. Extremely professional service, my Quartz worktop is amazing.

Phillippa De Leon

Beautiful stone worktops and genuinely committed to customer service and satisfaction. Exceptional interpersonal skills and top-class customer support. Excellent and prompt communication, scheduling of templating and installation.

^{Our} *Processes*

Perfection through precision

Anyone can buy beautiful raw materials, it's accuracy which sets us apart, giving our worktops their exceptional finish. And it all starts with the template.

Our templating professionals bring laser technology direct to you, creating a bespoke, millimetre-perfect map for your countertops. This accuracy allows us to fabricate and fit the crowning glory of your project.

It's beauty that's made to measure.

Traditional craft meets cutting-edge *technology*

At Bellagio Marble Ideas we continually invest in state of the art machinery to produce finishes with total precision.

When your project has been templated, the files are transferred for fabrication on-site at one of our specialist facilities. This allows us to proceed with complete control over the process and quality.

Once machined, our experienced team of stonemasons hand-finish each piece of stone before sending it for a final, pre-flight check. Then it's lovingly packed and safely despatched for fitting, pride of place in its new home. Your home.

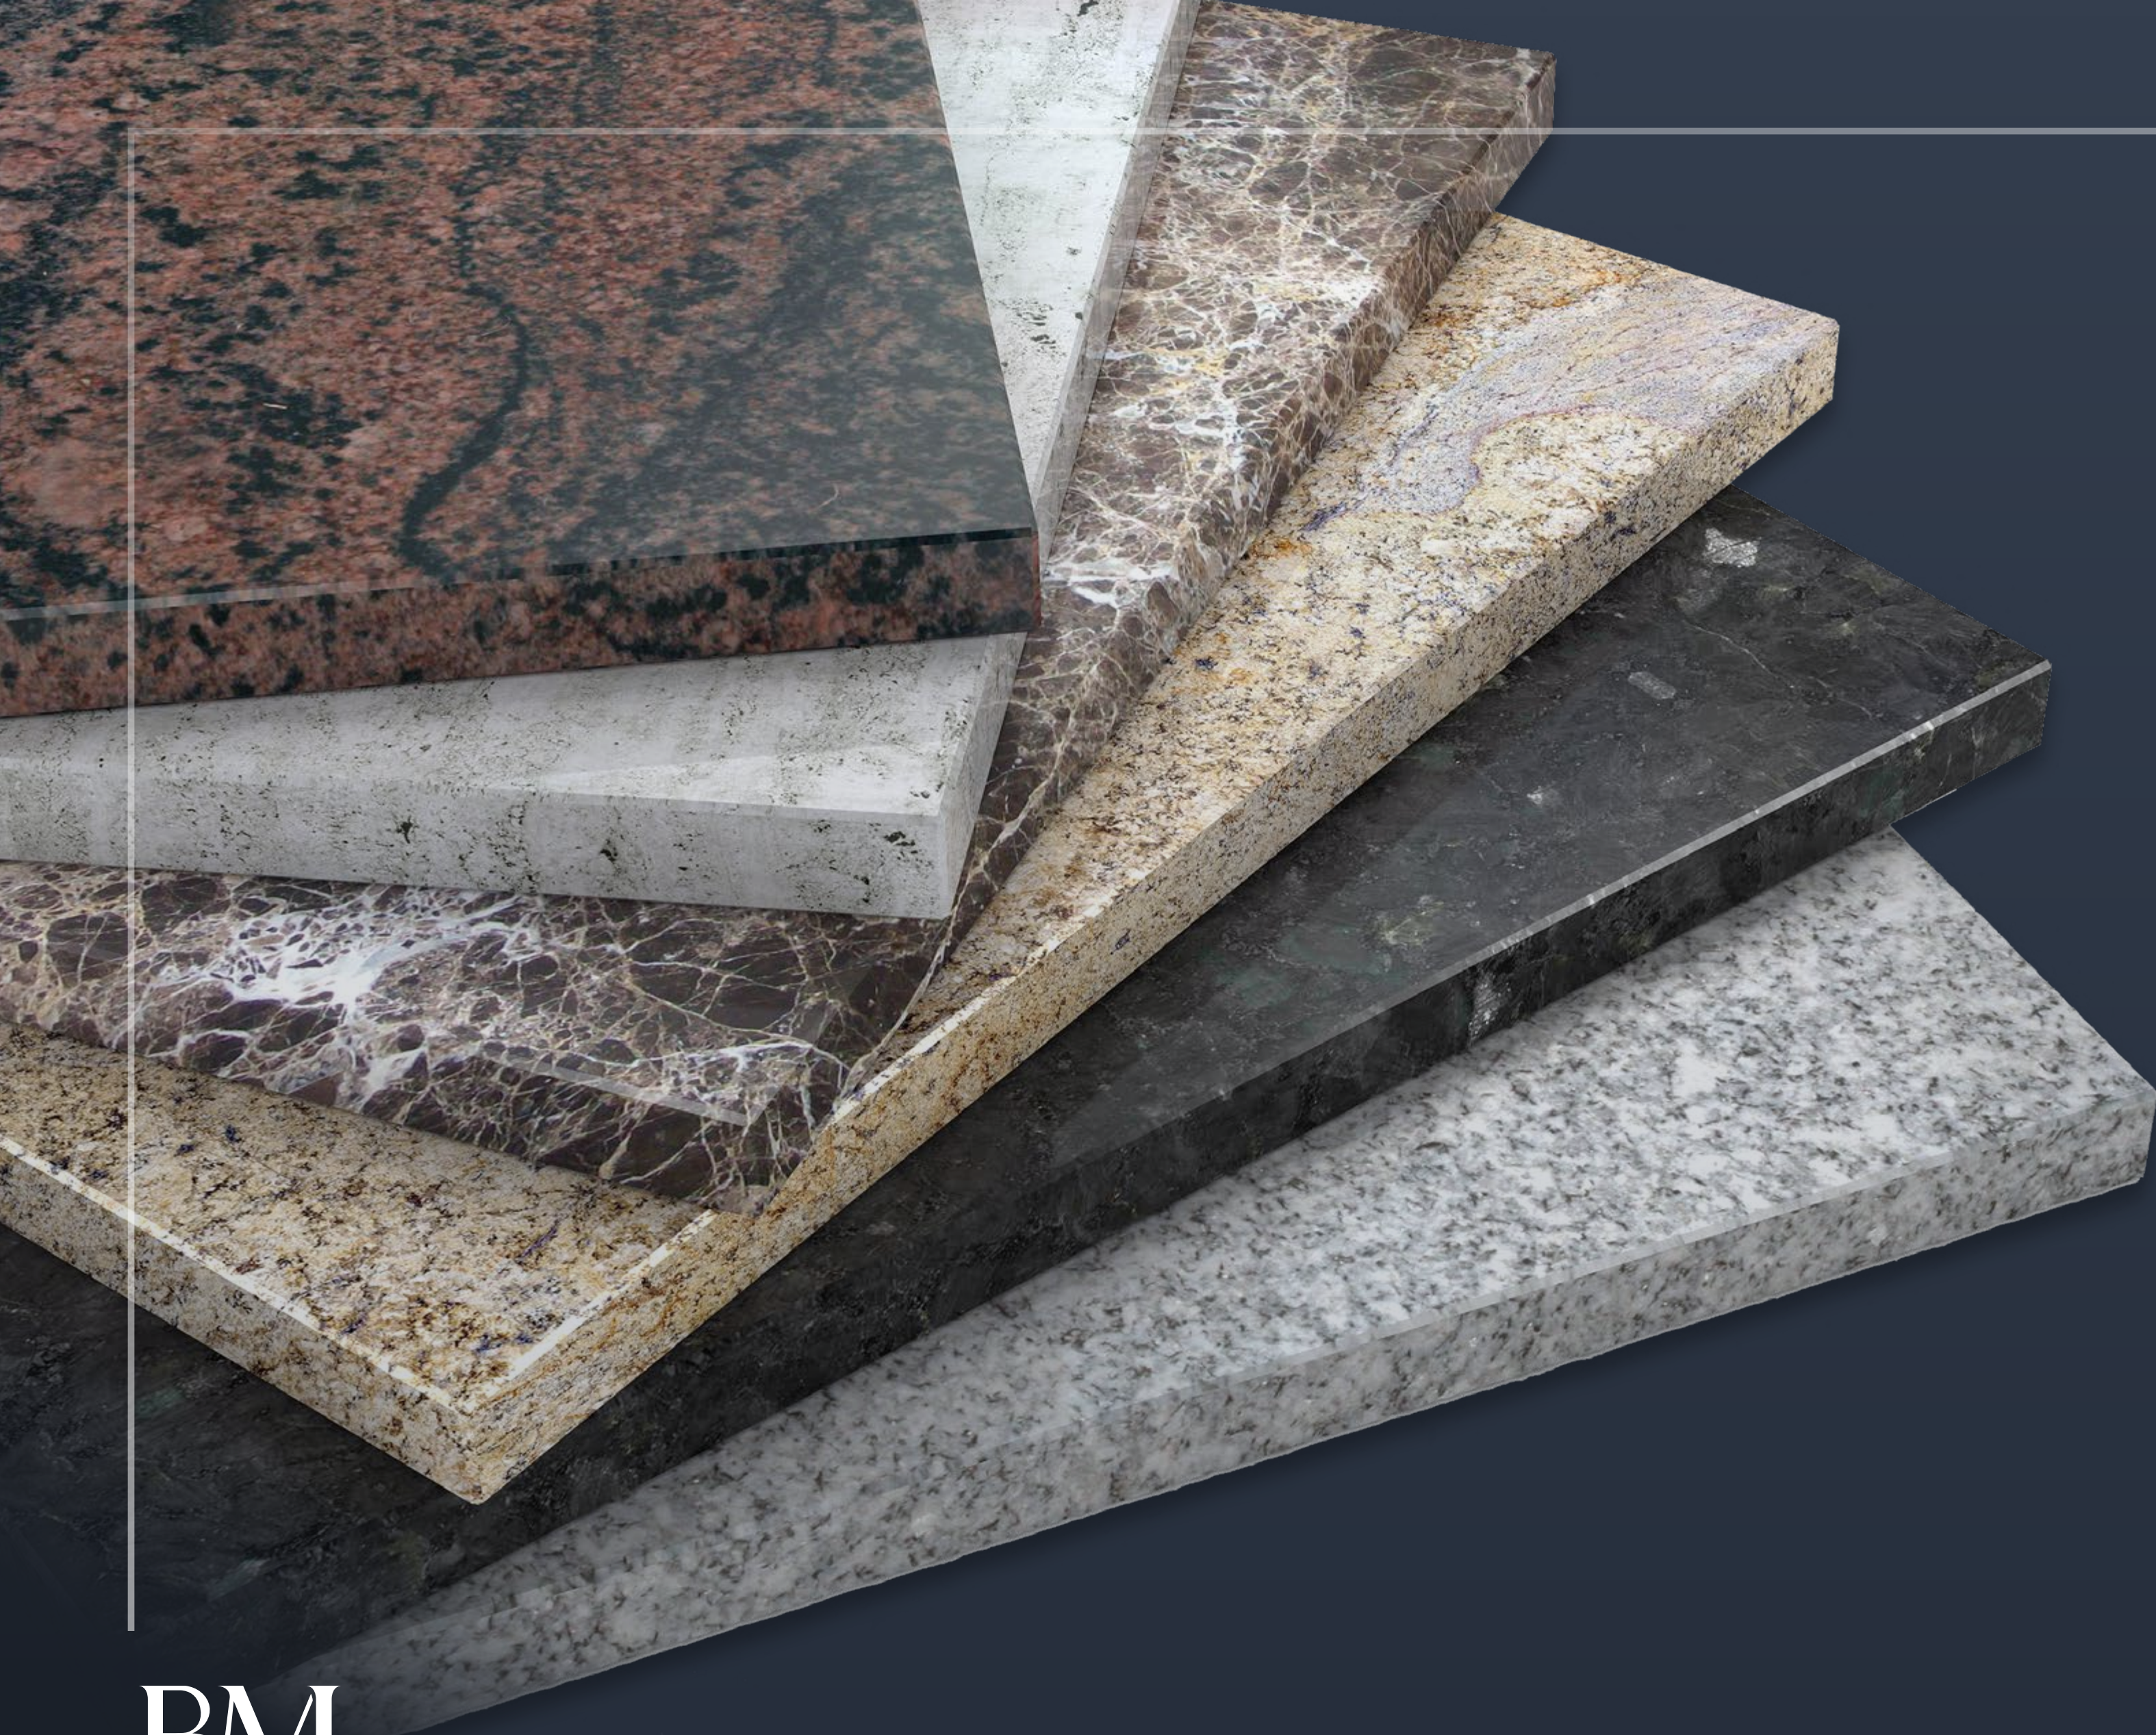

**NATIONWIDE
COVERAGE**

We've got the UK *covered*

Convenience is an integral part of our offering. Our philosophy says, the simpler it is for you, the bigger your smile once the project's finished.

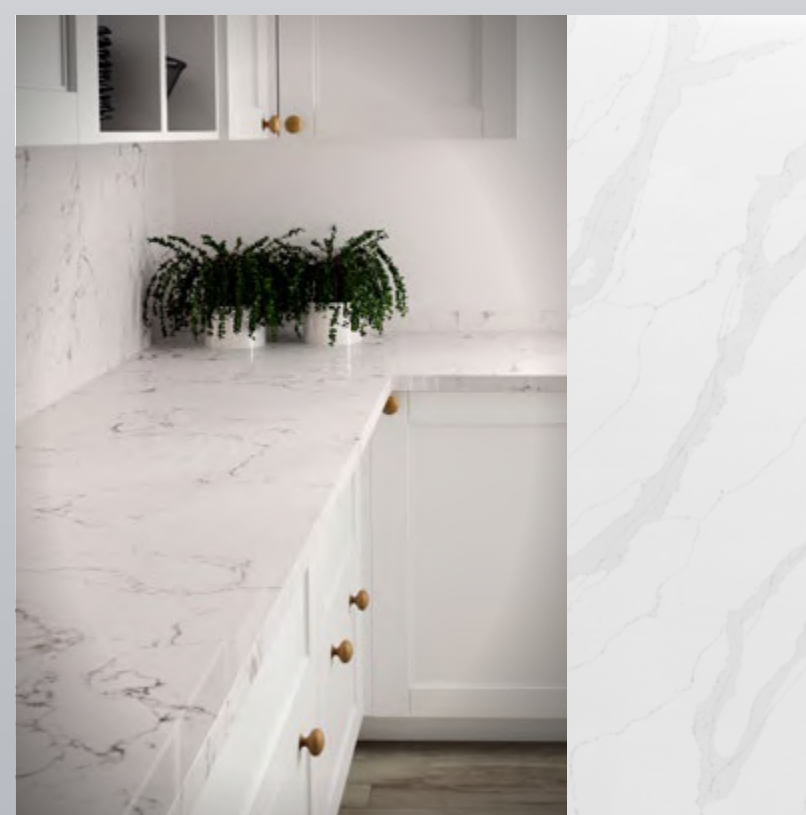

With our central showroom and two fabrication locations we can access 80% of the UK within 3 hours. And while there may be people slightly nearer, we don't think there's anyone better.

We also operate a trusted team of regionally placed fitters to help shorten journey times and reduce carbon emissions.

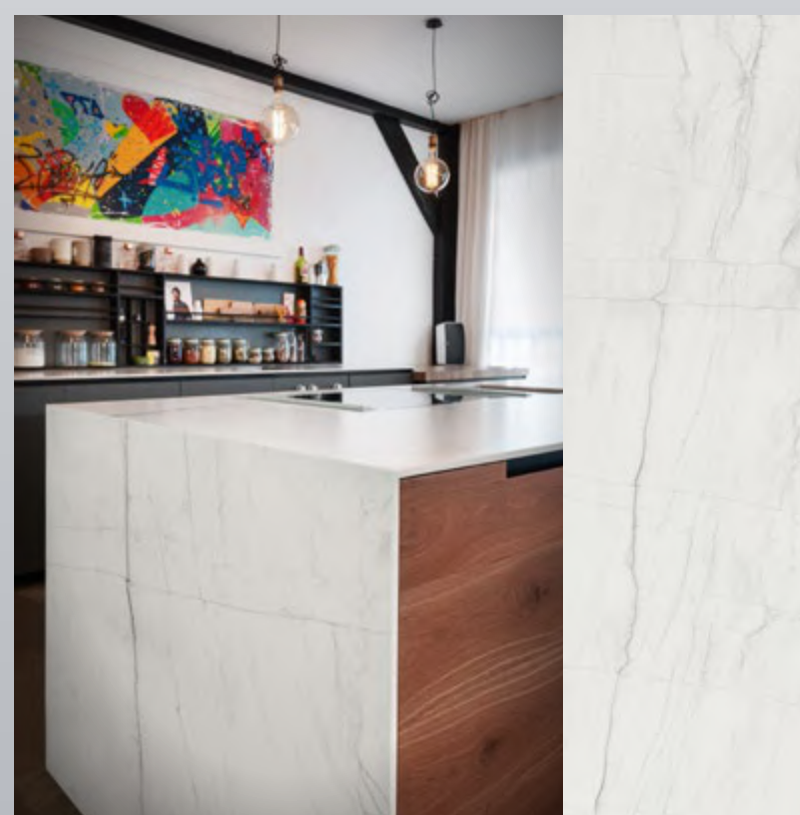

Our
Collections

We're proud to introduce three unparalleled stone collections, expertly curated to enhance your home. Our stone surfaces deliver the wow factor each and every time you enter a room – all while standing up to the demands of daily life.

*The Italian
Collection*

*The New World
Collection*

*The Natural World
Collection*

Our collections are organised by material characteristics and colour to help you pick the best fit for your project and palette.

If you'd like to source a colour outside our current collections, that's not an issue. We have excellent relationships with all major suppliers and manufacturers.

If you want it, we can source it.

If you'd like to better understand the different individual material characteristics of our products, please click below for our easy to follow guide.

Stone properties

Bellissimo

The Italian Collection

Whether you want a sleek, coherent aesthetic or a striking, contrasting design, quartz's versatility works well in contemporary kitchens and traditional spaces alike.

Our all-quartz collection has been painstakingly collated to shortlist the otherwise endless choice of colours available. What we offer now encompasses the enduringly popular and the best of the best.

Heat resistance, stain resistance and scratch resistance add to its desirability, and because quartz surfaces are non-porous, they're incredibly hygienic and easy to keep clean using just warm soapy water. With simple aftercare and maintenance, quartz stone surfaces can last a lifetime.

Explore **The New World Collection**

Waterproof, weatherproof, stainproof, scratch resistant, hygienic and easy to clean, the New World Collection is the latest in stone surface development.

Created from 100% natural materials, this range combines the best of both worlds allowing you to enjoy the benefits of man-made colours and styles.

Our range is made up of a combination of sintered and porcelain surfaces and comes in a variety of hues, textures and designs guaranteed to make your home – or garden – look amazing.

Unique

The Natural World Collection

Is there a better way to add luxury and stand-out to your project than with natural stone?

With no two pieces the same and unique variations of colour and pattern – determined by the composition of minerals over millennia – each slab offers a truly unique finish to your vision.

Our Natural World Collection contains a superb selection of the very best natural stone on the market. Our marble, granite and quartzite options are sourced from across the globe, offering individual visual and material characteristics.

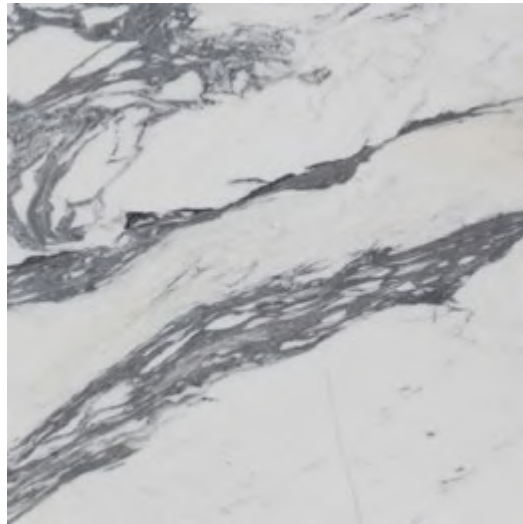

If you're looking for a finish that's all your own, this is the natural choice, the ultimate way to create a truly distinctive space.

IMPORTANT INFORMATION

The Natural World Collection are all totally individual finishes with specific characteristics. Each slab is unique and comes with its own pattern of veins, markings and naturally occurring fissures and pitting.

Due the natural character of the stone, Bellagio Marble Ideas do not recommend marble used as a kitchen surface.

Personalising
your worktops

Giving your project the *edge*

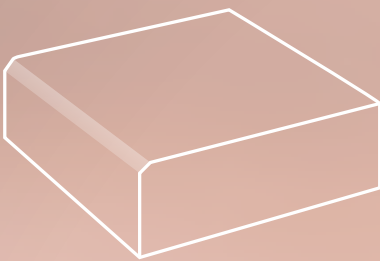

Do you know your Bird’s Beak from your Bullnose?

Perhaps you’ve considered a Waterfall for your bathroom?
It may feel like a small detail, but edge profiles can make a significant difference to the look and feel of your work surfaces.

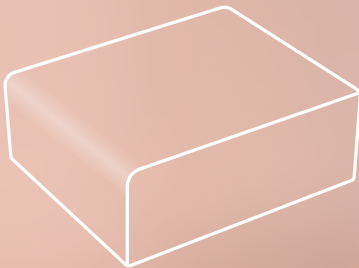

We currently offer a range of nine options, all delivering their own distinctive finish. From contemporary profiles like the Shark’s Nose, to the more traditional farmhouse look of the Ogee, we’ve got the style to perfectly suit your project.

You may know exactly what you’re after but if you need some guidance we’ll be very happy to advise.

Stand out

Follow your design through

Splashbacks

Splashbacks are a simultaneously beautiful and practical addition to your project – especially kitchens. Whether you want to match your splashback to your countertops or prefer to opt for a modern, contrasting design, we are here to make it happen.

We're happy to template and fit any splashback in your home at the same time as your worktop fitting. Choose from a range of materials and finishes to protect your walls and complete your look in style.

Upstands

Upstands are thin strips of matching material – usually around 100mm high – fitted to the wall directly behind your worktops.

In addition to making our beautiful stonework look even more seamless, they serve to create a better seal between your surfaces and walls. Aesthetically they're the perfect finishing touch, plus they prevent any spills from getting to your cabinets.

Accessorise

For a look that flows flawlessly

Way more than a mere practicality, the right choice of sinks and taps will seriously enhance your design and provide an even more jaw-dropping overall impression.

From matching your vision to successfully serving their intended purpose, it's easy to get a little daunted considering shapes, sizes, styles and finishes. We understand, and our experts are more than happy to offer one-to-one support, guidance and design advice on these key decisions.

*Please note that we do not handle plumbing, so you will need to contact a plumber to install your water and wastewater pipes.

Sinks

There's a lot to consider when choosing a sink. It needs to look good, match the rest of your room and successfully serve its intended purpose. We'll guide you through the process to ensure you're happy with the finished outcome.

[View sinks](#)

Taps

Once you've chosen your sink, you'll need to think about taps. Of course, you should choose something with a complementary finish, like stainless steel, copper or brass. You may also wish to consider shape, size and style.
