

**HAMILTON MEDICAL CENTER
ORGANIZATIONAL POLICY**

TITLE: Audition Rotation Policy

EFFECTIVE DATE: May 2024

SUPERSEDES:

ORIGINATION DATE: May 2024

ATTACHMENTS: Audition Rotation Application

AUTHOR: Graduate Medical Education

APPROVAL: Hamilton Graduate Medical Education and Residency Leadership

Purpose:

Hamilton Medical Center (HMC) will establish a structured clinical observer/audition rotation experience for prospective residency candidates.

Process:

Audition rotations will be held from August through November each year. Applications will be received until May

1. Your application will be reviewed by the program director, associate program director, and chief resident(s) before the rotation is scheduled. You will be notified by email if we can schedule the dates that you requested. If approved for an audition rotation, you will follow the onboarding process and submission of additional required documentation outlined in the **Preceptorships for Medical Students and Physician Assistant Students Policy**.

You do not need an audition rotation to be considered for an interview. We accept residency applications via the ERAS website and participate in the NRMP match.

Audition rotations can be scheduled for two or four-week rotations and may be a combination of both inpatient and outpatient experiences. You may only audition for one of our GME programs.

Method of Implementation:

Application documents requested:

1. Completed Application form (form attached to policy)
2. Proof of Step 1 and Step 2 Passing Scores
 - a. Explanation of any circumstances that contributed to failure to pass on first attempt
3. List of scholarly activity (includes publications, national or regional conference presentations)
4. List of volunteer experiences during medical school
5. Explanation of interest in Hamilton Medical Center
