

Partner with sites globally using AI to *enroll patients faster*

Inato connects you with interested sites worldwide who are using AI and have proven patient access, so you can accelerate drug development and bring care to the patients who need it most.

Ways to partner with us

Enrollment Support

Your selected sites run AI Pre-Screening on your protocol to **accelerate enrollment**.

Site Selection

Sites are onboarded and ready to pre-screen *before* activation. Use their **patient insights to inform selection decisions**.

Therapeutic Area

A pool of engaged, integrated sites sharing patient eligibility data **before your protocol is final for a program of multiple trials**

Sites are **3x more likely to adopt pre-screening when they see multiple trials to partner on.*

TOP THERAPEUTIC AREAS ON OUR PLATFORM

Broaden Your Trial's Reach

Expand the pool of patients engaged in your trials when you confidently partner with sites on the Inato platform. Based in communities across the globe, sites on our platform have the motivation, experience, and proven patient access to deliver results in your trial.
