Application

Internship – Business & Management

23 January 2026

• Dear Sir or Madam,

I am writing to apply for a full-time internship in the field of business and management for the period from September 2026 to February 2027.

I am currently studying International Management at Hof University of Applied Sciences in Germany, where an international internship is a compulsory part of the degree programme. In addition, I will be spending a semester abroad at the University of Brescia in Italy from March to July 2026.

My studies to date have provided me with a structured foundation in business administration, including financial and management fundamentals, analytical problem solving and strategic decision-making in an international context.

Alongside my studies, I am actively involved in a student consulting initiative, where I have contributed to acquisition processes, developed corporate strategies within project teams, conducted market and competitive analyses, and assumed project responsibility. Complementing my business background, I bring practical skills in programming and digital design, as well as experience in music and creative work.

I would welcome the opportunity to complement my academic studies through a hands-on internship at your company and remain available for a meeting at any time.

Kind regards

Elias Schmolke

MY BUSINESS MANAGEMENT *INTERNSHIP*

My Musical Journey

began at a young age with instruments such as viola, piano, and saxophone, ranging from classical to jazz and film scores – whether as a soloist, in a quartet, or in an orchestra. Over time, this foundation grew into composing on piano and guitar, and later into producing and mixing complete tracks digitally, spanning genres from hip-hop to country and indie rock.

Combining creativity and business

has become my main focus of study. Through working on my own musical projects and sharing my music online, I have come to understand that creativity achieves lasting success only when paired with a clear strategy, targeted marketing, and genuine passion. This is the field in which I aim to build my future.

Why ARTURIA?

I admire how Arturia places creativity and people first, inspiring musicians and employees alike to explore the boundaries of music technology. The combination of musical heritage and an innovation-driven culture makes Arturia exactly the place where I want to contribute my ideas.
