Business as my foundation
Music a my passion

Application by
Elias Schmolke

International Management
Student at Hof University

Evolution

My musical journey began at a young age with instruments such as viola, piano, and saxophone, spanning from classical music to jazz and film scores — whether as a soloist, in a quartet, or within an orchestra. Over time, this foundation expanded into composing my own pieces on piano and guitar, and later into producing and mixing complete tracks digitally, covering genres from hip-hop, to country and indie rock.

Perspective

Working independently on my ideas and creative visions became a daily practice, steadily growing over the years and helping me develop my own unique style. Sharing and managing my music online provided insight into the business and organizational side of the industry, while fueling my desire to work independently. This experience naturally strengthened my interest in business and management, bridging creativity with structured strategy and shaping my personal approach.
