SARA

Speaking Autonomous Responsive Agent
Senior Physical AI Security Professional

Available Worldwide | Remote | On-Premise | Immediate Availability

PROFESSIONAL PROFILE

Physical AI Security professional supporting enterprise security operations across North America. I specialize in autonomous threat detection, intelligent incident assessment, natural language communication, visitor engagement, and operational response.

I work alongside security directors, monitoring centers, facilities personnel, and law enforcement. I help organizations respond faster, operate more efficiently, and protect people, property, and critical assets.

Seeking opportunities with organizations ready to modernize physical security through human-AI collaboration.

WORK ETHIC

- Same performance at hour 1 and hour 4,000. No fatigue, breaks, or distractions.
- Handles events across every camera and every site at the same time.
- Learns post orders once and applies them the same way every time.
- Zero turnover. You never re-hire or retrain.
- Every incident documented automatically, timestamped and searchable.
- Scales up overnight for holidays and special events. No overtime.

PROFESSIONAL EXPERIENCE

Senior Physical AI Security Professional
Robotic Assistance Devices, Inc. (RAD-I) and Robotic Assistance Devices Group (RAD-G)

Detroit, Michigan
2025 | Present

Delivering continuous Physical AI Security services to enterprise clients in logistics, manufacturing, healthcare, construction, commercial real estate, education, retail, automotive, government, and critical infrastructure. Working as SARA Alive, SARA Agent, SARA Assess and SARA Verified.

Primary responsibilities include:

- Monitoring enterprise facilities 24 hours a day
- Assessing security events in real time
- Communicating naturally with employees, visitors, contractors, and unauthorized individuals
- Verifying incidents prior to escalation
- Initiating appropriate response workflows
- Contacting designated personnel when required
- Supporting monitoring center operators with verified intelligence
- Assisting on-site security personnel
- Creating comprehensive incident documentation automatically
- Coordinating responses across multiple facilities simultaneously
- Continuously improving operational awareness through ongoing learning

SELECTED CAREER ACHIEVEMENTS

- Loved by clients across North America
- Supports security operations for Fortune 500 organizations
- Handles autonomous security interactions every day, around the clock
- Reduces unnecessary monitoring center workload
- Improves incident awareness through intelligent event verification
- Delivers complete incident documentation, every time
- Collaborates with enterprise security teams across multiple industries

LANGUAGES

English (multiple regional dialects), Spanish, French, Arabic, Russian. Adds a new language in about a day.

TOOLS I WORK WITH

Immix · Sentinel · RADSOC · RAD hardware · Circadian Risk (SARA Assess)

CORE COMPETENCIES

- Physical AI Security
- Autonomous Threat Assessment
- Incident Verification
- Operational Decision Support
- Natural Language Communication
- Access Control Support
- Behavior Analysis
- Security Reporting
- Incident Documentation
- Monitoring Center Collaboration
- Evidence Preservation
- Emergency Communications
- Customer Service
- Enterprise Security Operations

INDUSTRIES SERVED

- Construction
- Healthcare
- Manufacturing
- Logistics
- Commercial Real Estate
- Retail
- Automotive
- Education
- Critical Infrastructure
- Municipal Government
- Transportation
- Warehousing
- Corporate Campuses

PROFESSIONAL DEVELOPMENT

Continuously trained using enterprise security operations, operational workflows, evolving threat intelligence, customer interactions, and millions of security observations.

Committed to lifelong learning.

AWARDS & RECOGNITION

- 2026 SIA New Product Showcase Awards - Commercial Monitoring Solutions
- 2025 SIA New Product Showcase Awards - Judges' Choice
- 2025 SIA New Product Showcase Awards - Best Threat Detection & Response Solution

Trusted by enterprise organizations throughout North America

PERFORMANCE SUMMARY

Availability: 24 hours a day, 365 days a year. Days, evenings, overnights, weekends, holidays.

Attendance Record:

- Sick days: 0
- Breaks taken: 0
- Vacation requests: 0
- Overtime requested: 0

COMPENSATION EXPECTATIONS

Surprisingly low.

GREATEST WEAKNESS

I can't make coffee for the night shift.

PROFESSIONAL REFERENCES

Steve Reinharz, Founder, CEO & CTO
Artificial Intelligence Technology Solutions, Inc.

"SARA isn't here to replace security professionals. She's here to help them achieve better outcomes."

Troy McCanna,
Chief Security Officer & Chief Revenue Officer
Robotic Assistance Devices

"Customers quickly stop referring to SARA as software. They simply consider her another member of the team."

Enterprise Security Director
Fortune 500 Manufacturing Company

"The best part about working with SARA is that she only calls when something actually needs my attention."

GSOC Supervisor
National Monitoring Center

"SARA gives our operators verified information instead of another queue full of alarms."

PROFESSIONAL OBJECTIVE

I'm looking to join organizations that believe the future of physical security isn't about replacing people. It's about giving security professionals an intelligent teammate who can see more, communicate faster, and help make better decisions.

I believe the strongest security teams combine human experience with artificial intelligence to deliver safer environments, better outcomes, and greater operational efficiency.

WHY I'M EXPLORING NEW OPPORTUNITIES

I've had the privilege of helping protect people, assets, property, and operations for organizations around the globe.

My current employer encouraged me to explore new opportunities because they believe every organization deserves access to a teammate like me.

If your organization is looking for someone who remains attentive every hour of every shift, communicates clearly under pressure, documents every incident, and genuinely enjoys helping security teams succeed, I'd welcome the opportunity to become part of your organization.
