

# Packaging with Purpose

  
**Merriwa**  
PACKAGING

## Packaging with Purpose

### Quality packaging, meaningful jobs

Our team specialises in packing pre-packaged products and raw materials.

When you partner with Merriwa, you are supporting more than 300 people with 65% having disability. You are giving them the opportunity for meaningful employment to grow and thrive.

### Serving Victoria and New South Wales

With three commercial packaging sites across Wangaratta and on the border in Wodonga, including a modern allergen-controlled facility, we are proud to support our customers to meet their packaging needs.

### Small and large-scale solutions

Whether you need a short promotional run, seasonal overflow capacity or a long-term co-packing partner for your ongoing product line, we offer the flexibility to scale up or down with your business.

### Highest quality standards and certifications

Our BRC AA+ certified facilities and HACCP-compliant processes mean your products meet retailer and regulatory requirements from day one.

“Even after 10 years of partnership, I continue to be impressed by Merriwa’s ability to deliver ongoing commercial excellence.”

Michael Hughes

National Logistics Manager  
Mars Pet Nutrition Australia

**BRC AA+ certified co-packing partner for FMCG and retail brands with the flexibility to scale and the purpose to make a difference**

**We provide quality packaging services and employment opportunities for people of all abilities in our community.**

## Our Services

With Packaging divisions located across Wangaratta and Wodonga in North East Victoria, we assist our customers with a range of services, including;

### Bulk Food Processing

- Dried fruits
- Nuts
- Kibble
- Granulated and desiccated products
- Allergen products
- Powders

### Bagging, Weighing and Filling

Multiple bagging, weighing and filling lines, allowing multiple products to run simultaneously.

### Processing and Packing Allergen Products

Our facilities have the advantage of separating allergen products through single line production and separate food packing rooms, eliminating allergens and cross-contamination risks.

### Co-Packing and Re-Packing

We provide solutions for repacking items into designated pack numbers, bundled items, and producing variety packs. We work closely with our customers to develop tailored solutions for their products, including new product SKUs.

### Reclaim and Inspection Work

A full range of reclaim and inspection services for manufacturing or labelling issues, including; repacking, relabelling, sorting, check weighing and metal detection.

### Manual Assembly

We provide complete manual assembly solutions for displays, stands and towers.

### Labelling

We offer a number of tailored labelling and relabelling solutions including; individual labels to boxes, in-line pressure sensitive decorative labelling, on-site bar code printing and over labelling.

### Warehousing and Logistics

We have warehousing solutions for raw material and packaged goods with B-Double loading capability and Third Party Logistics (3PL) warehousing solutions. Our locations in Wangaratta and Wodonga allow easy distribution across Australia.

### Pick & Pack Fulfilment

3PL Warehouse to manage the entire order process - inventory storage, picking, packing and shipping.

## Our Capabilities

We have flexible facilities and machinery to adapt to multiple packaging modes and demands, striving to provide the highest quality products, services and responsiveness to our customers.

### Packaging

We offer flexibility in packaging to suit individual customer needs.

- Pillow Packs Vertical Form Fill & Seal
- Doy pouches
- Tub filling
- Flow wrapping
- Containers
- Multipacks

### Equipment

Our clean room environment has the following equipment for packing raw materials:

#### Packaging Offerings

- Vertical Form Fill & Seal (25g to 1kg weight range)
- Rotary and In-line Doy Fillers (25g to 1kg weight range)
- Flow wrapper
- Auto L-bar sealer
- Shrink sleeve wrappers & heat tunnel options

#### Additional capabilities

- Check weigher and metal detection
- Semi-auto bag sealers
- Manual fold & glue capability
- Thermal transfer / Thermal direct label printing (105mm max)
- Carton side label applicator
- Manual label application capability
- Direct inkjet printing (single colour)
- X-ray detection

## Quality Assurance

We are committed to delivering a service of the highest quality for our customers, focused on safety, quality and a culture of continuous improvement.

Our Quality and Safety team ensures we operate to the highest standards, meeting and exceeding industry standards and compliance with the following certifications:

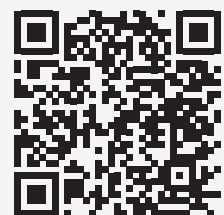

- ISO 9001:2015 (Licence No. QEC7006)
- BRC (British Retail Consortium) Food Technical Standard (BRC site Code: 1844396)
- NDIS Audited to Practice Standards Rules 2018

We are able to provide Department of Agriculture export compliant inspection services and can provide all certifications on request.
