

Career Management Services

EAP services

– available to all CMS employees

At Career Management Services, we prioritise the well-being of our staff just as much as their professional growth. That's why we have our Employee Assistance Program (EAP) — via Acacia EAP — which is a resource designed to provide support, guidance, and solutions for challenges that might arise both in and out of the workplace.

Through the EAP, as a CMS employee you have access to confidential counselling, expert advice, and a variety of helpful services to navigate personal, work-related, or family concerns.

Whether you're seeking stress management tips, or simply someone to talk to, our EAP is here to support you with tools for success and resilience.

Remember, it's okay to ask for help — and the EAP is a safe, professional space dedicated to supporting you.

For more details about how to access these services, feel free to reach out to Jo Kwok, Shawn Taylor, or visit acaciaconnection.com.

You can access Acacia EAP 24 hours a day on
1300 364 273

Alternatively, you can request an appointment or live chat with their team online at acaciaconnection.com or by texting 0480 087 020.

Additional resources are also available through the Acacia online member's area:
