

Rossera Maintain Project Parties Accelerator (RMPPA)

Empowering business users to maintain team members against their projects quickly & easily with a self-service digital experience

Rossera: From system complexity to operational empowerment, we enable true Oracle ERP process transformation.

Business Automation Challenges

Business users without access to the ERP or financial expertise require a simple way of requesting changes to team members on their projects.

Four Critical Pain Points:

- ▲ **Process Bottlenecks:** Project managers and operational staff are forced to use ticketing systems for processing of projects changes manually.
- ▲ **Transaction Delays:** Project team members are unable to submit time & expenses on projects that they're working on.
- ▲ **Lack of Visibility:** Users have no visibility of the end-to-end process.
- ▲ **Data Quality Issues:** Manual entry creates errors and risks ERP rejections.

The impact on the business: Customer bills delayed causing impacts on critical business functions. Transactional reporting impacted due to project members being unable to access the projects they're working on.

Introducing The Rossera Way

Our unique **Rossera Way** methodology combines structured processes with purpose-built tools such as **Rossera ProcessSense®** to create repeatable, scalable results that enhance your Oracle Fusion or E-Business Suite ecosystem.

Rossera Maintain Project Parties Accelerator (RMPPA): Empowers project owners & individuals working on projects in Oracle PPM Cloud to directly maintain team members (project parties) against their projects without the need to use back-office processing.

Key Features:

- ▲ Real-time ERP validation against master data at point of entry.
- ▲ Automated workflow routing with configurable approval hierarchies.
- ▲ Seamless Oracle integration with full audit trail creation.
- ▲ Self-service interface requiring no ERP training.

User Experience: Our products enable a consumer-grade digital experience across all devices with real-time access to Oracle ERP data.

Proven results that speak for themselves

Big Four Professional Services Firm – Engagement Management

- ▲ Global transformation from centralised project maintenance to self-service automation with a digital journey.
- ▲ Streamlined user experience enabling users to maintain project access independently.
- ▲ Significant reduction in technical debt through Oracle integration architecture.
- ▲ Eliminated back-office processing bottlenecks for multi-national operations.

CLIENT TESTIMONIALS:

"The product as well as Rossera's role in helping us craft and deliver solutions has been nothing short of a game changer for us."

Partner, PricewaterhouseCoopers

"The feedback from business has been excellent, pointing out the streamlined and simplified user experience, improving the speed in which they can transact."

Oracle Global Solution Architect

Who it's for

Organisations that utilise projects across their workforce and wish to streamline project maintenance & reduce load on centralised/back-office teams.

HOW WILL THEY KNOW:

- ▲ Maintenance of team members (project parties) on projects is cumbersome & highly centralized?
- ▲ Process for adding, updating or removing team member is lengthy?
- ▲ End-to-end process taking a long-time resulting in holding up users transacting on projects?
- ▲ Substandard audit and control processes?

Summary

The Rossera Way Accelerators provide quick-win implementation, leveraging existing Oracle investment with minimal business disruption to empower teams to get the best out of their Oracle ERP systems.
