

Your partner creating future work environments.

360° - strategic. professional. collaborative.

Work environments that work.
Spaces that reinforce your culture. A process that adapts to your needs.
With Schumm und Rösch, you can plan your workplace of the future.

For You

1. Space & Selection

We help you identify the best possible space from all available options – one that fits your vision.

2. Consulting & Workshops

We support you through change and growth – with clarity and vision.

3. Concept & Planning

We create spacial concepts that blend identity and function.

4. Design & Construction

We design and build spaces that bring strategy to life.

5. Furniture Advisor

We provide furnishing for ergonomic, flexible, and sustainable workspaces.

6. Ongoing Support

We stay involved – with regular updates and ongoing optimization.

Im Detail

Create clarity.

Together, we analyse where your company stands, where it is heading, and what role spaces play in that development. Based on these insights, we help you create a sustainable workspace strategy – one that is not superficial, but truly well founded.

Design spaces that fit.

Based on your goals, we create tailored space concepts that are functional, aesthetic, and future-ready. Because one-size-fits-all no longer works. Your spaces should reflect your identity.

Ensure seamless execution.

We ensure planning and construction go hand in hand – with coordinated design and reliable points of contact.

Guide through change.

Because change never stops, we continue to support you beyond project completion – with feedback, fine-tuning, and ongoing development.

Who

For businesses, that are changing, growing—or struggling to find talent.

For organizations, that embrace New Work, rather than just talk about it.

For teams, who need spaces that offer more than just a place to work.

Why it works

Not about picking service providers- but **a partner who offers a one-stop shop.**

We don't think in terms of service, but in **outcomes** for you.

We don't work for spaces – we work for the **people** in them.
