

Leadership Risk Is Measurable. Now It Is Also Visible.

Detect. Diagnose. Decide. Before performance declines.
ARC + ORBIT transform organizational signals into early warning intelligence.

THE PROBLEM

By the time leadership risk becomes obvious, the damage is done.

Cultural signals go undetected. Behavioral patterns remain invisible.
High performers leave because warning indicators were never surfaced.
Asking 'where is our risk?' requires weeks of manual data gathering.

MODULE 01 | ENTERPRISE TIER

ARC

Adaptive Reasoning Core

Leadership Risk Queries

'Where is our risk increasing?'
Answered and visualized in seconds.

Cultural Signal Detection

Behavioral, performance and development data combined into one risk view.

Early Warning Dashboards

Detect organizational anomalies before they impact business outcomes.

MODULE 02 | EVOLUTION+ TIER

ORBIT

Risk & Behavior Intelligence

Flight Risk Intelligence

Top talent under poor leadership: flagged before the resignation.

Behavioral Anomaly Detection

Strong results masking team damage: algorithm exposes the pattern.

Succession Vulnerability

Critical roles with zero ready successors: identified and escalated automatically.
