

You Started the Project. Who Actually Finished It?

Launch. Track. Complete. No project falls through the cracks.
LSS + OVERWATCH ensure every improvement initiative reaches completion.

THE PROBLEM

Improvement projects launch with energy. They die in silence.

Lean projects begin, then vanish into untracked spreadsheets.
No one knows which leader is blocking the cycle or falling behind.
Without real time execution visibility, operational momentum is lost.

MODULE 01 | EVOLUTION TIER

LSS

Lean Six Sigma Engine

Auto Generated Projects

Every waste finding automatically becomes a tracked improvement initiative.

Progress Tracking

Each project tracked via progress slider.
Complete only when all sub projects close.

FTE Impact Per Project

Savings calculated at project level.
ROI visible before the project even ends.

MODULE 02 | GENESIS TIER

OVERWATCH

Execution Control Engine

Execution Health Dashboard

Completion rates of every cycle visible.
10% complete? The system flags it instantly.

Pending Actions List

Exactly who has not completed what.
Name, task and delay duration exposed.

Accountability Enforcement

Automated reminders to specific people.
Targeted nudges that drive completion.

Real time

Execution visibility

100%

Completion tracking

Auto

Accountability enforcement

Immutable

Full audit trail

*"You launched 15 improvement projects last quarter.
How many actually reached completion? Who is holding up the rest?"*

LSS creates the projects. OVERWATCH makes sure they finish.

See it live. Request a 15 minute operations demo.
