

# Consultant Partner Program

Turn your consulting into a measurable, scalable digital practice.

## THE PROBLEM

**You say "we improved leadership culture" but you cannot prove it.**

Performance reviews, coaching engagements, training programs. The client is satisfied or not, but the difference is invisible. STRASYS fills this gap: your consulting impact becomes a number, a score, a trend.

### Measurable Impact

Every leadership intervention becomes a data point. "ORBIT score rose from 62 to 78, here is the proof" replaces "we improved culture." Your consulting becomes provable.

### Scalable Infrastructure

Separate database per client, single dashboard for you. Aggregated Billing lets you invoice like your own digital product. Scale to as many clients as you need from one panel.

#### Executive Coaches

Manage client portfolios on STRASYS. Separate panel per client. Full leadership data at your fingertips.

#### HR Consulting Firms

SPECTRA and STAR become your consulting product. Subjective reports replaced by algorithmic insight.

#### Training Companies

Measure post training leadership development. Prove ROI. Bundle pricing.
