CAPABILITY STATEMENT

WHO WE ARE

- Founded in 1998
- Products are designed with focus on quality and eco-consciousness
- Product range including high-performance air filters and Media, nuclear decontamination wipes, detection swabs, and ion exchange membrane
- 70,000 sq ft factory in Chattanooga equipped with state-of-the-art systems capable of manufacturing nonwoven roll goods and cast membranes.

CORPORATE DATA

CAGE CODE: 1NLA4

UEI: NLG9DS1TAJ58

EIN: 943321021

DUNS: 036255094

SAM STATUS: ACTIVE

NAICS CODES: 46121, 562910, 561990, 423710, 333413, 333411, 313220, 238220, 333999, 325998, 325612, 334517, 562910, 561210, 333415, 333413, 313230, 322291, 325612, 325998

EMR: 0.89

NIGP CODE: 345 94

SIC CODE: 2842

GSA: GS-07F-0451W

FSC: 4130, 7390

CORE COMPETENCIES

- Polymer production
- Nanofiber production
- Ion exchange membrane production
- Lamination, slitting, die cutting, and packaging
- Research, development, and prototype production
- Testing products per ASTM and ISO test standards

PAST / CURRENT PERFORMANCES

- LLNL, Y12 Complex
- Savannah River
- MDA, Army, Navy, Air Force
- Homeland Security
- Department of Energy
- Industrial partners and customers
- DOE/DOW Prime & Sub Contractors
- Vandenberg AFB, CA

CONTRACT VEHICLES

- Partnerships and joint ventures with prime contractors
- Minority Owned

PRODUCT SERIES

Ion Exchange Membrane

Electrospun membrane

ESWIPE® Decontamination Wipes

EXSENS® Swabs/Smears

SIMWYPE® Decontamination Wipes

EXCEED® Filters
