High Torque Series Clamps XH Series – 5/8" wide band Heavy Duty Worm Gear Clamp

- Available in all 300 series stainless steel, all 304 stainless steel, and all 316 stainless steel with 5/8" band width.
- Screw is longer and has a larger diameter than standard Worm Drive clamps to provide strength under load and to increase the number of threads engaged with the band. This produces a clamp that can withstand higher loads.
- Band material is slightly thicker allowing for higher tensile strength providing a stronger clamp capable of producing higher torque ratings.
- Ultimate torque is a minimum of 100 in lbs, or 11.3 Nm.
- Recommended Installation Torque is 75 in lbs or 8.5 Nm.
- Suitable for applications where a heavier duty clamp is necessary.
- Other material grades may be available upon request.

"A" Diameter Range					
300 Series SS	304 SS	316 SS	Decimals		Millimeters
