

Stack-Drive Constant Tension Clamps

SLHD series – Heavy Duty Constant Tension Worm Drive Clamp 5/8" wide band

- Murray Constant Tension Worm Drive clamps compensate for changes in temperature, ensuring a leak free performance.
- Bellville washer "stack" provides spring action to accommodate increases/decreases in joint diameter, preventing loosening and loss of clamp load due to temperature fluctuations.
- Typical uses are in heavy duty truck, high performance automotive, marine, and severe duty industrial applications.
- SLHD Series Material – Band, Housing and Washers are 300 grade stainless steel, and Screw is 400 series stainless steel. Other material combinations available upon request. Band width is 5/8". Liner is a welded shield to prevent soft hose from protruding through the band slots.
