

Stack-Drive Constant Tension Clamps

SLF series – Constant Tension Worm Drive Clamp 9/16" wide bands

- Murray Constant Tension Worm Drive clamps compensate for changes in temperature, ensuring a leak free performance.
- Bellville washer "stack" provides spring action to accommodate increases/decreases in joint diameter, preventing loosening and loss of clamp load due to temperature fluctuations.
- Typical uses are in heavy duty truck, high performance automotive, marine, and severe duty industrial applications.
- SLF Series Material – Band, Housing and Washers are 300 grade stainless steel, and the screw is 400 series stainless steel. Other material combinations available upon request. Band width is 9/16". Liner is an extended band to prevent soft hose from protruding through the band slots.
