Passenger compartment

The City Line is designed for urban passenger transport with high passenger capacity and efficient passenger flow.

Equipped with comfortable passenger seats featuring:

- three-point safety belts
- durable upholstery in fabric and eco-leather
- passenger grab handles

Two additional folding seats are installed in the rear section of the vehicle (wheelchair area).

Wheelchair space at the rear equipped with safety belt and armrest.

Driver seat finished in the same upholstery as the passenger seats.

All seats are mounted on a rail system in the floor and side wall, allowing quick removal or repositioning of the seats.

Glazing

- panoramic side windows with double glazing
- tinted and thermo-insulated
- rear modification with special body design and large window

Air conditioning & ventilation

- roof-mounted air conditioning with central distribution for the passenger compartment
- climatronic control panel in the driver cockpit
- cooling capacity: 11 kW (Webasto)

Heating

- water heating system integrated with engine operation
- two convector heaters along both sides of the vehicle
- digital control panel
- additional water heater with fan function in the rear section (wheelchair area)
- additional Mercedes-Benz Webasto water heater (5 kW)
- insulated heating pipes with protective covers

Lighting

- LED entrance lighting
- white LED lighting along the roof in the passenger compartment
- aluminium window strip with dual lighting (white/blue)
- blue LED night lighting
- roof corner lights

Multimedia & electronics

- original Mercedes-Benz MBUX multimedia system
- additional Pioneer 1DIN radio (CD / MP3 / USB)
- amplifier and hands-free microphone
- USB charging ports for passengers
- Mercedes-Benz rear-view camera
- reverse buzzer signal
- two side cameras with monitor for driver to control entrance areas
- loudspeakers in the passenger compartment
- stop buttons for passengers
- clock with timer and temperature function in the driver cockpit
- special inside and outside wheelchair buttons for passengers
- driver control panel for passenger compartment lighting

Safety

- anti-slip and waterproof PVC floor with high wear resistance
- lowered rear floor for easy entry and wheelchair access
- additional safety railings at the entrances
- manual wheelchair ramp at the rear of the vehicle
- roof ventilation hatch functioning as emergency exit
- marked emergency exits and seatbelts
- safety hammers
- poles and grab handles for standing passengers
- fire extinguisher
- first aid kit

Exterior

- modified rear body design
- all exterior plastic parts painted in body colour
- additional black exterior design elements
- chrome wheel set

Additional equipment

- electric panoramic passenger doors at the front and rear
- passenger compartment wall upholstery in eco-leather and easy-to-clean fabrics
- enhanced thermal and acoustic insulation

Certification

- EU COC certificate according to directive 2007/46/EC
- homologation as city minibus with standing passengers and wheelchair accessibility
