

Bespoke and Custom Designs Aeration Systems

All our water fountains and aerators are available as a custom build, designed exactly for your requirements. We offer a full design, costing and build package for aerators and fountains along with specialist installation if required.

Heathland Service Centre

Everything supplied by our company is maintained and serviced in-house. Items can either be shipped directly back to our service team or if you prefer, we also supply onsite servicing.

Additional Services

We are the preferred Oase Water Treatment Professionals for the UK. Providing specialist treatments for string algae, blue green algae, aquatic weeds, and sediment reduction.

We strive to provide exceptional results for every budget and requirement, backed up by our industry accreditations from BALI, Constructionline, Contractors Health and Safety Assessment Scheme and Safe contractor.

Fusion Series Aerating Fountain

Fusion Aerating Fountain with Lily Twister Display

Example Twister Nozzle Displays

The Fusion Series of aerating fountains were created, by combining the Select Series 2 aerating water fountain and the Evolution Series water fountain. They are ideal for an aerating surface display.

The Fusion Aerating Fountain produces a stunning visual display and increases DO.

The Fusion Series is a stunning display fountain with high flow rates and a multi-nozzle system that is easy to maintain. These floating lake fountains are engineered using high strength materials, built to last and provide high-quality strong display patterns whilst operating at low power consumption. The float on the Fusion Series was designed for direct attachment of our 30W LED lights allowing easy addition of stunning lighting options.

The added twister module also available with the Fusion Series water fountain truly puts your display into motion. Standard nozzles included: Cluster Arch, Tornado, Daffodil, Super Lily, Lily and Flare. The Additional nozzle package includes: Double Arch, Pentator, Trillium, Spider & Arch, Delmar, Weeping Willow, Tiara, Quad and Double Arch Lily.

Based in Norfolk, we supply all parts of the United Kingdom, allowing us to deliver cost-effective solutions to any client. All our products are available for "supply only" or "supply and installation" across Europe.

Heathland Group is proud to have an extensive client base ranging from aquatic management service providers, schools and universities, local councils, hotels and holiday parks, golf clubs, fisheries and of course many homeowners all over the UK and Europe.

Tiara

0.5 HP	Display Ht.: 2m Display Dia.: 7.6m

Fusion Aerating Fountain with Twister Nozzle

Features and Benefits

- Available in 1/2 HP - 2 HP models
- Up to 30 different display patterns
- High strength composite pump components
- Increased motor life due to lightweight propellers
- High strength suction screen
- Quick disconnect control panel
- A large suction screen resulting in less maintenance
- Horizontal and vertical configurations available
- Multi-nozzle system
- Ships in one box (additional lighting boxed separately)
- Low power consumption
- 3-year warranty parts (non-wear parts)
- 3-year return to base labour warranty, upgradable to onsite
- Vertical model minimum operating depth: 0.83m
- Horizontal minimum operating depth: 0.41m
- Typically pumps 329M3/H

Installation

Heathland Group offer a full installation service for all of our aeration equipment to all of our clients, this can include the following options:

- Full cabling
- Trenching
- Control panel installation
