

Permission for photography/video and public exhibition of student artwork.

***** Please read carefully, sign, and return to your child's teacher. *****

Dear Parent/Guardian:

This year your child is part of a special art program called Studio in a School (Studio). Studio brings professional visual artists into classrooms and via distance learning in collaboration with teachers for arts education. Artwork created by the students may also be selected for one of Studio's special live or online exhibitions or to become part of the Studio Permanent Collection. **Studio is asking your permission to share images of your child and their artwork in a variety of ways.**

Please be assured that Studio does not profit by sharing student photos and/or artwork and does not share work for commercial purposes. For a sample of how student work is shared with others, please visit our website at www.studioinaschool.org.

Thank you!

I give my permission for each of the following items:

- My child's artwork and my child's signature may be published, republished, reproduced, edited, or exhibited to support Studio's arts education programs in New York City.
- Photographs and audio/visual recordings of, and/or quotes by my child may be used in non-commercial reports, publications, webpages or other media about or by Studio or in invitations and other signage for exhibitions to support arts education programs in NYC, to promote Studio and/or its mission, and/or any Studio exhibitions.

Name of Child: _____

School: _____ Grade: _____ Class: _____

Parent/guardian signature: _____

Please print parent/guardian name: _____

Date: _____
